### LAUNCHES PEACE SEPARATION

### Asks League Peace Separation

### Senator Sherman made his address in presenting a resolution declaring the sense of the senate that the league covenant should be separated from the peace treaty when the latter is submitted for ratification. He charged that covenant and treaty had been closely interwoven in the final draft for the deliberation of the senate, and argued that separate consideration would give an opportunity for the senate and the country to pass a more sober verdict.

### He charged President Wilson had broken faith with China, Poland, and Italy, had "yielded to Great Britain," and had endeavored "to subvert the fundamental laws of the republic," and had promised to embark the United States on policies that would require her to send a million soldiers abroad.

### "The American people," declared the senator, "have not yet fully measured the unparalleled and atrocious character of the assault made by the authors of the league on American government and American institutions. A more extensive assembly of men never threatened the peace and safety of our country than now demand that unlimited powers over the lives and fortunes of our people be surrendered into their keeping."

### Only Grammar Improved.

In revising the original covenant, said Mr. Sherman, the delegates at Paris had improved only its grammatical texture.

"Like the original document it is unamendable, omniscient and infallible. It is a document which must be accepted as it flashes from the summit where dwells the incarnate wisdom. It has become political blasphemy to question and treatise the original and the amended leagues impair the sovereignty of this republic and reduce it to a vassal state. The league of nations is interlocked with the entire structure of the world for an ulterior purpose. If it can be welded upon the peace treaty it is supposed to procure votes, otherwise impossible. It is a confessed case of log rolling. The league is a device while the government is at war, the vast and unknown war powers of undefined extent will be invoked to declare it valid. If peace be declared, the powers disappear. In peace civil powers are construed and interpreted by peace tribunals. War powers are interpreted, defined or created by the military authority which exercises them.

**Ratify Peace First.**

"Let this senate first ratify a treaty of peace, then we may consider under civil procedure and civil authority unavowed by executive war powers the possible vital changes proposed in our form of government. The revolutionary experiments bristling from this league may then be submitted to the people whose lives and fortunes are proposed to be cast into the fiery pool of the whole world's quarrels. Altruism never before rose so far above human nature and common sense, nor idealism so deluded its vision. The twentieth century does not call on us to reenact the crusades. The misguided imagination of intellectual perverts has wrought more evil than the violence of the criminal and the distorted images of the insane. The man who writes a book to portray a new and perfect government he assures us he has invented, is more dangerous to his country than the anarchist.

**Calls Wilson Revolutionary.**

"Colonel House foreshadowed the destruction of constitutional government in the United States in his work of fiction published in 1912. This novel exhibits his disregard of law and his belief in revolution. George D. Herron, lately the greatest enemy to the belated governments in Russia says of the president in 1917, 'he is a revolutionary beyond anything his words reveal.' Five members of the president's cabinet are taken with socialism. A vast swarm of his appointees are known to be open and avowed socialists. The administration of Woodrow Wilson even under constitutional forms of government is a hybrid between a French revolution and an oriental despotism. History would forget the reign of Caligula in the excesses and follies of the American government. The league is interpreted by President Wilson and Col. House."

**Manheim Panic Stoked.**

Manheim--Citizens, alarmed by the belief that Germany will not sign the peace treaty and that the allies will occupy Manheim, become panic stricken and stormed the municipal bank.

Paris, May 23.—The note from Count Von Brockdorff-Rantzau, head of the German peace delegation regarding the economic effect of the peace treaty, was made public today. The note says:

"Mr. President: I have the honor to present to your excellency the report of the economic commission charged with the study of the effect of the conditions of the peace on the situation of the German population as follows:

"In the last two generations Germany has become transformed from an agricultural to an industrial state. As an agricultural state, Germany could feed 40,000,000 inhabitants. In her quality of an industrial state she could ensure the nourishment of a population of 87,000,000. In 1913, the importation of foodstuffs amounted to round figures to 12,000,000 tons. Before the war 15,000,000 persons were aided for their existence in Germany by foreign trade and by navigation, either in a direct or an indirect manner, by the use of foreign raw material.

**Terms Take Away All Ships.**

"According to the conditions of the peace treaty Germany will surrender her merchant tonnage and ships in course of construction, suitable for overseas service. German shipbuilding yards will build for five years in the first instance tonnage securities in the allied and associated countries. Germany will, moreover, surrender her colonies, all her overseas possessions, all her interest and equity in the allied and associated governments and in their colonies, all her mines and all her rights of exploitation and may be exposed to any other economic war measure which the allied and associated powers think fit to maintain.

"By the putting into force of the territorial clauses of the treaty Germany would lose to the east the most important regions for the production of corn and potatoes which would be equivalent to the loss of 21 percent of the total crop of those articles of food. Moreover the intensification of the harvest production would diminish considerably.

"On the one hand the importation of certain raw material indispensable for the production of foodstuffs would be hindered; on the other hand this industry would suffer like all industries for lack of coal. The treaty provides for the production of most of a third of the production of raw material. Apart from this decrease we are forced for 10 years to deliver enormous consignments of coal to various allied countries.

**Reduced of Mineral Products.**

"Moreover, in conformity with the treaty, Germany will concede to her neighbors nearly three quarters of her mineral production and more than three fifths of her zinc product. After this diminution of her products, after the economic depression caused by the loss of her colonies, her merchant fleet, and her raw materials, Germany would not be able to produce a sufficient quantity of raw material. An enormous part of German industry would therefore be in a state of complete destruction. At the same time the necessity of importing foodstuffs would increase considerably, whilst the probability of satisfying that demand would diminish in the same proportion.

"At the end of a short time Germany would therefore not be in a position to give bread and work to the numerous millions of inhabitants who would be reduced to earning their livelihood by navigation and by trade. Those persons would have to emigrate, but that is a material impossibility all the more so because many countries and the most important ones, will oppose any German immigration. Moreover, hundreds of millions of Germans expelled from the territories to the powers now in the hands of Germany would have to return to their native land.

**Forecasts Loss of Millions.**

"The putting into execution of the conditions of peace would therefore logically bring about the loss of several millions of persons in Germany. This catastrophe would not be long in coming about, seeing that the health of the population has been broken down during the war by the blockade, and during the armistice by the aggravation of the blockade of food. No help however important or over however long a period it might be distributed, would prevent these deaths en masse. Peace would impose on Germany a numberless human sacrifice of a war of four years and a half did not demand of her pride (1,750,000 killed, nearly one million dead, victims of the blockade).

"We do not know, and indeed we doubt, whether the delegates of the peace treaty will be able to carry out the terms of the treaty, and have forced the enemy to retreat southward.

Further recognition of the work of women during the war was given by the war department recently when Secretary Baker presented the distinguished service medal to Dr. Anna Howard Shaw, chairman of the women's committee of the national defense. When the armistice was signed the organization of women had been perfected in 43 states, comprising nearly 4,000 county councils, and about 150,000 community and municipal units.

These are the stories told by Ernest Rosenow and his "buddy," Oscar Senns, Modesto.

"I had a few drinks in downtown saloons, last night. While walking along Academy street we were accosted by a taxicab driver who asked if we wished to become acquainted with some girls. Senns accepted the invitation and we got into the cab. We were taken to a roadhouse which we afterward learned was located in South Janesville. On the way out I heard one of the men on the driver's seat of the cab tell the other that they had a couple of 'easy marks' to beget out of the cab. When we got to South Janesville I got out. The taxicab driver insisted that he would see that Senns was well taken care of and that he could have his room at a local hotel.

"I went to a red brick hotel and there met seven other discharged soldiers. I ordered eight glasses of beer for the crowd. The bartender served us, and handed \$1.00 for the drinks. One of the fellows in the crowd urged me not to pay more than the regular price and I offered 50 cents. The bartender became abusive and swore at me. I saw a man with an empty beer bottle. That started a fight and after the soldiers had left the place it was found some had sustained black eyes. The bartender was hurrying out of the place. They were pretty badly bruised up."

**Recites Night's Adventure.**

Senns told that portion of the night's adventures as he recalls them.

"I remember of getting into a taxicab and going to a roadhouse where I had some drinks. I remember being brought back to the city. I saw a man sitting in a chair in the lobby of a local hotel.

"I felt inside my blouse for my wallet in which I had had \$90 and found it missing. It was as if I had been robbed. After serving in every big battle in France since the Americans joined the allies, I thought an American soldier was immune from robbery by his fellow citizens."

District Attorney Dunwiddie had a short conference with Chief of Police Gover, this morning. Before leaving for Madison he made no statement regarding probable steps that would be taken as the result of the fight.

Sheriff Beley is out of the city and will not return until later in the day. Chief of Police Gover said he would make every effort to locate the taxicab driver who is alleged to have taken the men to South Janesville.

Excavation for the new St. Patrick's parochial school will be commenced the first week in June, members of the building committee declared at a special meeting held last evening. Final plans for the structure have been completed and approved and contractors' bids will be called for shortly.

In order to provide for more space on which to build, the church has purchased the Lillis property on Holmes street. The Lillis home is to be removed as soon as possible in order that excavation may begin. A public auction of the home will be held Saturday, May 31.

Members of the retail division of the Chamber of Commerce are expected to attend the members' council luncheon at the Myers hotel, Monday noon. C. O. Reed's talk on advertising will be of unusual interest to merchants. Mr. Reed is the new advertising manager of the Sanson Tractor company.

Luncheon will be served at 12:15 with Mr. Reed's talk following it immediately.

**Predicts Red Cross Future.**

New York--Henry P. Davison declared that "the world league of Red Cross societies is destined to become a medium for throwing the light of medical science into the dark corners of the entire world."

Chicago, Ill., May 23.—Federal Judge Landis will listen to arguments tomorrow on the bill of exceptions for an appeal to the United States circuit court of appeals in the case of Victor L. Berger, socialist congressman-elect from Milwaukee and four co-defendants under sentence of 20 years imprisonment for violation of the espionage law.

St. Paul, Minn., May 23.—Two masked men entered and robbed the St. Anthony Park State bank, St. Paul, of \$2,000 after 1:00 p. m. today. The robbers escaped in an automobile.

St. Paul, Minn., May 23.—Light rain fell through the district in which brush and forest fires have been smoldering and breaking forth at intervals for the past week in northern Minnesota.

St. Paul, Minn., May 23.—The body of Congressman C. C. Van Dyke, who died in Washington Thursday arrived here today. Gov. Burnquist with other state officials and representatives of military, patriotic, civic, fraternal and labor organizations were at the railroad station.

Rome, May 23.—The volcano of Stromboli, on the island of that name off the north coast of Sicily, was in violent eruption last night. Numerous victims are reported.

New York, May 23.—Elbert H. Gary, chairman of the United States steel corporation, declared here today that "it is time that industry and enterprise in the United States shall be encouraged and protected instead of being attacked, interrupted and destroyed."

He spoke at the fifteenth general meeting of the American Iron and Steel Institute, of which he is president.

Virginia, Minn., May 23.—Light rain fell through the district in which brush and forest fires have been smoldering and breaking forth at intervals for the past week in northern Minnesota.

St. Paul, Minn., May 23.—Two masked men entered and robbed the St. Anthony Park State bank, St. Paul, of \$2,000 after 1:00 p. m. today. The robbers escaped in an automobile.

For Growing Girls  
Oxfords and Pumps

Big Girls' Black and Brown Vici Kid or Calfskin Oxfords with the new military heels all sizes up to large 7, \$3.35, \$3.65, \$3.85, \$3.95.

Misses' sizes in Pumps or Oxfords, \$1.95, \$2.35, \$2.65, \$2.95, \$3.15.

Children's, all sizes, \$1.35, \$1.65, \$1.85, \$1.95.

An unusually large stock and a big variety of all the new styles to select from at these extremely low prices.

## WINNIPEG MAYOR ASKS COMMITTEE TO STUDY STRIKE

Winnipeg, Man., May 23.—Mayor Charles F. Gray, in an address this afternoon at the opening of the public meeting in the city council chamber recommended that a committee of Winnipeg men representing labor, capital, and government be appointed to consider the varied problems and broad phases of the general strike.

Commercial activities were rapidly approaching normal today, except for the postal and street railway departments. Restaurants opened with non-union employees. Telephone service was maintained.

Shortly before the public meeting it became authoritatively known that the Winnipeg union forces were not unanimous behind the executive heads of the central strike committee.

Protests have been sent here by heads of at least two local unions to the international headquarters, charging that certain unions were forced to join the sympathetic walkout, despite the fact that such action was not constitutionally required.

Winnipeg citizens have transmitted a formal protest to the federal government regarding the embargo on mail to and from Winnipeg as a result of the strike of local postal clerks.

## FARM HELP SHORTAGE STILL HELD SERIOUS

Farmers are co-operating with the local office of the federal employment service to a greater extent than in the past, but the shortage of farm labor is still a serious problem, according to the federal employment service, which has been making a study of the situation.

Despite the high wages and good working conditions now offered, there is still a serious shortage of farm labor, according to the federal employment service, which has been making a study of the situation.

W. H. Levi, manager of the local office, said today that the shortage of farm labor is still a serious problem, according to the federal employment service, which has been making a study of the situation.

## BIRD HIKE.

An enthusiastic bunch of youngsters and grown-ups, all interested in getting acquainted with their feathered friends left the public library corner late this afternoon on a bird hike under the leadership of Alonzo Pond.

Children were armed with bird books to support all their observations by the book of facts.

An all day hike starting out at 9 o'clock tomorrow morning and lasting until late in the afternoon is being planned by Mr. Pond. Anyone wishing to join the hikers is asked to meet at the library corner at 9 o'clock, bringing his own lunch.

A few children who braved the wet weather Thursday were taken to the woods by Mr. Pond, although the hike was officially called off for the day.

## DRUGGISTS PROTEST AGAINST STAMP TAX

Druggists of the city met at the Chamber of Commerce and organized, electing W. T. Shearer chairman, with power to call future meetings. It was voted to draft a letter of protest on several parts of the stamp tax, particularly the tax on drug necessities.

Business in general is being hampered and a number of helpful suggestions were offered by different druggists. Those who attended were: J. P. Baker, Otto Smith, F. C. Bunt, Louis McCarthy, W. F. McCue, E. O. Smith, and George E. King.

It is the plan of Alexander Jacobson, new head of the druggists' division of the Chamber of Commerce, to organize each class of retailers. The druggists' meeting last night, his first attempt, was a complete success. He expects to have approximately 35 small retailers' organizations with chairmen elected.

## C. M. E. SUNDAY SCHOOL SOCIAL THIS EVENING

The C. M. E. Sunday school will have a social and entertainment tonight at the church beginning with a supper at 6:30 p. m. Each department will eat supper at a department table, while other departments will have their supper by classes.

At the close of the supper there will be a lecture on "The Holy Land." The lecture will be given by the pastor, Franklin L. Lewis. About one hundred colored slides illustrating the Holy Land will be thrown upon the screen.

All the members of the Sunday school are requested to come to the church for the supper at 6:30 p. m. The public is invited to the lecture on the Holy Land.

## ENTRIES ASKED FOR JUNIOR STOCK MEET

Rock county boys and girls between the ages of 8 and 20 years are invited to compete in the Junior Stock Meet, which will be held in the stock pavilion at Madison, November 3-7, under the auspices of the State Breeder's association and the college of agriculture, Madison.

Cash prizes are offered in the different divisions. In some classes the winner will receive \$50. No contestant will be allowed to exhibit an animal previously shown at a fair. Exhibitors are confined to one entry in each class.

All details of the exposition can be obtained from R. E. Acheson, acting county agent, at the court house.

## 34 COUPLES ATTEND "HI-Y" CLUB PICNIC

Thirty-four couples will attend the "Hi-Y" picnic to be held near Iron Springs, eight miles up the river, this afternoon. The party will leave at 4:30 o'clock, come by bus and some in autos. Upon their arrival at the picnic grounds a fire will be built and supper will be served. The party will be chaperoned by A. C. Preston, boys' club secretary of the "Hi-Y," and Miss Florence Scanlon.

The picnic tonight is in the nature of the wind-up of the year's work of the "Hi-Y" club. Last year's co-ed picnic was given by the members voted in favor of having a picnic this year.

## IMPORTANT MEETING AT Y. M. C. A., MONDAY

The biggest program ever planned by the Y. M. C. A. will be outlined at the postponed annual meeting of the members at the association building Monday evening. Y. officials are urgent in their request that every member attend and get into the spirit of the organization.

"With the changes which are now being made we will soon have about the largest boys' department in any association in the state," said Charles E. Noyes, assistant secretary, today.

"From three to four times as many boys can then be accommodated. The removal of the banquet hall to the gym makes it possible to provide for double the attendance at future banquets."

"Working with the growth of the city is planning a great work for the coming year. Industrial activities of a wide scope will feature the program."

Sixteen directors are to be elected at the meeting Monday. Reports of officers on the past year's work will be read and future plans discussed.

## County Wheat Fields Are Inspected Today

An inspection of Rock county wheat fields to find whether or not any of the wheat has been attacked by the two Australian wheat diseases which have proved so serious in Illinois, is being made today by R. E. Vaughan, assistant professor of pathology at the university, and R. E. Acheson, acting county agent. The two diseases which are feared are "rust" and "take-all."

## GERMANY'S POVERTY CLAIMS ARE GIVEN NO PITY BY THE ALLIES

(Continued from page 1.) ment in the postwar period.

"The German note makes special complaint of the depletion of coal and asserts that nearly one-third of the production of the existing coal mines has been lost. But it omits to notice that one-fourth of the pre-war consumption of German coal was in the territories which it now people takes to transfer. Further, it fails to notice that the production of lignite, 80 million tons of which were produced annually in Germany. Neither is any reference made to the fact that the output of the non-transferred districts was rapidly increasing before the war, and that there is no reason to doubt that under proper management, it will be a continuing source in the future."

Destroyed Coal Supplies. "But should not the coal situation be viewed from a different and wider standpoint? It cannot be forgotten that among the most wanton acts perpetrated by the German armies during the war was the almost complete destruction by her of the coal supplies of northern France. An entire industry was obliterated with a calculation and savagery which it will take many years to repair. The result has been a grave and prolonged shortage of coal in western Europe. There can be no reason in equity why the effect of this shortage should be borne exclusively by the allied nations who were its victims, or why Germany, who deliberately made herself responsible for the deficiency, should not, to the full limit of her capacity, make it good."

"Stress is also laid upon the hardships alleged to be inflicted upon Germany by the necessity of importing the future iron ores and zinc. It is not understood why Germany should be supposed to suffer from coal shortages, while the allied nations, who were its victims, should not, to the full limit of their capacity, make it good."

"The German note also makes special complaint of the depletion of coal and asserts that nearly one-third of the production of the existing coal mines has been lost. ## H. S. GIRLS EXHIBIT CLOTHES AND BAKING

The annual domestic science exhibit was held at the high school this afternoon at 4:30, and again at 7 o'clock. All day tomorrow the exhibit will be displayed. Articles of wearing apparel made by the girls were shown. Tomorrow the baking sale will be put on.

The girls have worked faithfully to make this showing demonstrate what they have accomplished in the course of the year.

Plans for W. S. S. Drive Are Being Perfected

To further interest in war saving stamp sales, and especially to promote the shirt habit, Superintendent O. D. Antsdorf, H. H. Faust, and A. M. Fisher met with Postmaster J. J. Cunningham at the post office Friday afternoon.

Plans were made to hold a county meeting at 3:30 o'clock, June 8, at the high school. Mr. Fisher has arranged for a special speaker interested in W. S. S. work to address the gathering. Post office employees, rural carriers, teachers, and representative men and women from all parts of the county will be invited to enlist as workers in the county.

W. S. S. workers feel that the work must be kept up during the summer months so that interest will be kept for the drive in the fall when the schools reopen.

## Rotarians Enjoy Banquet at Rockford

Twelve members of the Rotary club and their wives were guests at a banquet given by the Rockford Rotary club in the Elks' room in that city last evening. They made the trip on a private interurban sent by W. C. Sparks, manager of the interurban company.

A talk on community building and other civic needs and problems was given by Mrs. F. Lane, Joliet.

## Holway Pays Tribute to 32nd Division

Madison, May 23.—Adjutant General Holway paid a mighty tribute to the members of the Wisconsin National Guard and to the National Guard in general Thursday evening, when he addressed the Madison Rotary club, when he cited the record of the 32nd division in the Argonne battle when for 21 days of continuous fighting they met and defeated 11 crack German divisions.

"I thought it my duty, before entering upon a discussion of other details of the treaty, to bring to the knowledge of the allied and associated delegations this summary expose of the problem of the German population."

"I have at my disposal of your excellency statistical proofs of the above statements."

"(Signed) Brockdorff-Rantzau."

## SOCIAL EVENTS

The T. M. T. club will meet this evening with Miss Elizabeth Hooper, at the State School for the Blind. A dinner will be served at half past seven. Dancing and other games will fill the evening. Later in the evening, the girls will enjoy a swim in the large swimming pool of the school. The following girls will enjoy Miss Hooper's hospitality: The Misses Bessie Korst, Annette Wilcox, Ruth Francis, Dorothy Granger, Helen Wilcox, Marion King, Eunice Cunningham, Helen Bingham, and Ruth Bailey.

Mrs. Charles Smith, 291 Jackson street, was hostess this afternoon to a bridge club. A luncheon was served at half past one, cards were played in the afternoon at four tables. The prize money is held in reserve to be used for some needy cause. Already quite a sum has been donated by the different club members.

Mr. and Mrs. A. S. Holmes, Milton, were dinner guests, Thursday, of Mr. and Mrs. John L. Terry, 1008 Clark street.

Camp Fire Girls will meet at the home of Miss Katherine Sullivan, Pleasant street, at 2:30 Saturday afternoon. A business meeting will be held and new candidates discussed. Ten girls are members of the club.

Miss Julia Connors, 620 Pleasant street, will entertain the M. N. club, this evening. Bridge will be played, and a supper served after the game.

Frank Birmingham, South Jackson street, entertained at a six o'clock dinner, last evening. His guests were George Berger, Clarence Green, Ben Khulow, and William Sullivan were the guests.

Miss Hazel Meyers, Glenn street, entertained a girls' club, Wednesday evening. This is a sewing club. They all take their work. At eight o'clock Miss Meyers served refreshments.

Mr. and Mrs. Frank Richardson, town of Harmony, gave a family dinner, Wednesday evening. It was given in honor of the son, Ray Richardson, who has recently returned from France. A musical and social evening was enjoyed.

The first women's golf game of the season for this year, was played today at the Country club. They will play every Friday. About 30 golf players have joined the team. The game was out at one o'clock, which is held in the club house. The game started at 2:30.

## CLUBS AND SOCIETIES

The Chiomathian club will meet, at 2:30 o'clock, Saturday afternoon, at the home of Mrs. E. H. Parnsworth, 225 South Wisconsin street. This is the annual meeting and there will be election of officers for the ensuing year.

The First Christian church, Joyal Boys' class will give an ice cream social tonight at the church at 7 p. m. The public is invited.

Circle No. 1, Second ward, of St. Mary's church, will hold a card party and social at St. Mary's hall this evening.

A dancing party will be held Friday evening in the Pamel Davis new barn. Olson Bros. and Claude Darling will furnish the music. It is in the town of Porter. Several from this city will attend.

An interesting meeting of the Rock County Past, Noble Grand was held Thursday afternoon at the home of Mrs. John Slightam, North Bluff street. A program was given after which the hostess served refreshments. There was a large attendance.

Communion service will be celebrated Sunday, May 25, at the Federated church. At this time a class will be received into the church membership.

The 20th Century History class will meet with Mrs. E. J. Haumerson, 446 North Jackson street, Wednesday, May 25. They will finish the reading of "The Four Emperors of the Apocryphal." This will be the last regular meeting of the season.

The open Forum, Bible study class, met at the Federated church, Thursday evening. An interesting program was given. There was a good attendance.

The Presbyterian Junior, met at the Congregational church, Thursday at four o'clock. A short program was given and a lunch served at five o'clock.

## PERSONALS

Miss Josephine Carl, St. Lawrence avenue, is home to spend her summer vacation, from Washington, where she is attending Miss Summer's school. Miss Harriet Carl, who is attending the same school has gone to New York city to spend a week with Miss Sibel Richardson, before returning home.

Mrs. Herman Burke, Johnston, spent the day with Janesville friends Saturday.

Miss Florence Norton, Cambridge, was a Janesville shopper, Thursday.

Mrs. Clara Dickinson, Oakland avenue, has returned from a visit of a week at La Crosse.

Mrs. William Palmer and daughter, Dorothy, and Mrs. L. T. Nichols, St. Lawrence avenue, will return this evening from Beloit, Wis., where they have been spending the winter. Dr. William Palmer went to Chicago this morning to meet them.

J. J. Kelly, Chatham street, spent the day on business in Chicago, Thursday.

Miss Jane Boomer, South Third street, has returned from a few weeks visit at Darien with friends.

Mrs. M. B. Macdonald, Whitewater, spent Thursday in Janesville, shopping.

Mrs. Ernest Norton, Monroe, will be the week end guest of relatives in Janesville.

REV. C. E. EWING  
DESCRIBES FRENCH  
PEOPLE AND CUSTOMS

Letters received from the Rev. C. E. Ewing describing interesting items connected with living conditions in France have been received by members of his family and brief extracts will be noted as follows:

"Most of the French freight cars are very much shorter and lighter than ours. At every station there are small turntables, by which they are turned and sent on to another track. Horses are generally used to make the trains, drawing on ropes attached to the cars. Many of the cars are owned by private companies, some being French, some German, which have been turned over to the allies after the armistice. Some are Italian, bringing troops from Italy and others in large numbers are marked U. S. A. The latter will eventually be turned over to France after the American soldiers have gone home.

"Today I noticed a vestibuled train of 16 vestibuled cars with big red crosses on their sides. Many of the French locomotives have long smoke stacks and many of them have their boilers made of brass and with the cabs having no protection from the weather.

"The French engines have no bells and the American bells bothered the people so much that they have mostly been removed. The French whistle is sharp and piercing.

"The tracks are nearer to each other, and the overhead bridges are lower, so that it is unsafe to ride on top of the cars or put one's head out of the windows. The American army has posted striking notices warning men to avoid these dangers. Most of the railway crossings are grade crossings and the gates are kept closed except when some vehicle wants to pass on the highway. With the many trains now running, this is a great safeguard. The station master is an autocrat, and exercises unlimited authority, holding up or dispatching trains as he pleases. This is often very aggravating to Americans in their railroad work.

"While the war was on we were seldom asked for tickets on trains. Now we usually have to show them. It was supposed to be impossible to get on to a train platform without a train ticket, and no one in uniform could buy a travel ticket without a travel permit.

"Even when we did not have to show our tickets on the trains, we had to show them at our destination to get off the platform.

"It is not necessary for me to buy a ticket, instead I get an order of transport which is paid for by the American army at the rate of one quarter fare. Later it is collected from the U. S. M. C. A. by the officials of the army. A good deal of red tape is necessary in making a trip embrace

ing about six different tickets or permits.

Tells of Frenchmen

Another letter is devoted to descriptions of men of the French forces. "The men are representative Americans, well men, physically and up to a set standard mentally, but accepted without any standard morally or spiritually. The result is typical American manhood. They are efficient individually and collectively. They do not adapt themselves to conditions, but adapt conditions and conditions to themselves. They get things done, not always in the most economical way, but somehow and successfully. They are like children in many ways. Separated from home and restraint, large numbers have fallen into the habits of the French people.

"As everywhere the worst element makes the most noise, probably the great bulk of the army is self-respecting. The men of the army have learned many things and they will change their opinion when they return home. These men will have to take time to reconsider things when they return to civil life, and their sober second thought will be a decisive factor in America of tomorrow.

In regard to the French people, he says:

"The more the American soldiers see of France, the better they like it. Individually many of them fraternize cordially with the French, but it is so impossible for the average American to think of anything but the body as being so good as ours, that they are liable to misjudge them while here. They came to France prejudiced in their favor, and there is danger that they may go home prejudiced against them. But to the French, the American people are wonderful for their combination of kindness and lack of courtesy which is to them unappreciated. Their lack of courtesy is sometimes amusing and doubtless sometimes distressing, but is still wonderful.

Get Things Done

"They admire him most for his ability in getting things done. Now for my own opinion of the French people. Their motto might well be "Do As You Please," which shows that liberty means total lack of restraint from moral, legal, and social regulations. Sometimes they please to do bad things and be absolutely careless of the comfort and convenience of others. "The French may be impulsive, but they hate to be rushed, and while they may admire American efficiency they never love its push nor want to adopt it for themselves.

"The French are inclined to do everything with oolal, and it is perfectly natural for them to talk and act as the actors do on the stage. A preacher whom I heard this morning say that would seem strained in America. But all these things mean that the French give expression to their feelings and emotions which we repress, and perhaps we have both to learn something from the other."

Shaves Going Up

Sheboygan, May 23.—Demands by union barbers for higher wages has raised the price of hair cuts to 40 cents and of shaves to 20 cents here.

MOOSE INVITED TO  
ATTEND GAME WITH  
EDGERTON, SUNDAY

Sunday will be Moose day at the fair grounds.

Manager Murphy of the Lawrence Lunch has extended an invitation to the local lodge to attend the game in a body. He plans to extend a similar invitation to other organizations in the near future.

A special block of seats in the grandstand will be held for the Moose. The grandstand WILL BE clean," said Murphy today.

The Janes will practice at the fair grounds again tonight, putting themselves in trim for the game with the Edgerton Highway Tinklers here Sunday. Edgerton is reported to be loading up for the occasion.

Moose Kleinbein, Madison st., will be seen on the initial sack for the Janes again Sunday. It is believed has been signed to do the twirling, while Tommie Croake is ready to do the receiving work.

The remainder of the line-up will be announced complete tomorrow, together with the line-up of Edgerton.

CONTINUE TO WASH  
ALL LIGHT GLOBES

Early this morning the work of washing the light globes was renewed. Three men brought here back for the Janes again Sunday. It is believed has been signed to do the twirling, while Tommie Croake is ready to do the receiving work.

The remainder of the line-up will be announced complete tomorrow, together with the line-up of Edgerton.

Get the habit of reading the classified ads—it will pay you.

POLICE ASKED TO  
SEARCH FOR THIEF

Chief of Police William Gower has been asked by the federal authorities to assist in the search for Lieut. Henry Joseph Braker, who absconded with the civilian payroll at Camp Holabird, Maryland.

The notice of the theft received by Chief Gower states that the authorities have reasons to believe that the thief is in the vicinity of Chicago. Lieut. Braker, a former sergeant in the Carranza army in Mexico, was placed in charge of the civilian labor at Camp Holabird and on May 16 left the payroll for the men. He left the quartermaster's office early in the afternoon to pay the men and has not been heard from since.

Dies in Airplane Accident

Neenah, May 23.—Andrew Grassel, well-known Neenah young man, is dead as the result of an airplane accident which occurred at a southern cantonment camp according to a message received here.

A Great  
Opportunity to  
Buy a Home Right  
Now

To the highest bidder at Public Auction, St. Patrick's congregation, in order to clear the lot at once for the building of the new parish school. Will sell the house etc., etc., on the Illinois property, 415 Holmes street, Saturday afternoon at 1:30 o'clock. Mrs. J. M. Sule takes place on the lot.

W. T. DOOLEY, auctioneer.

## PIE CRUST

—and such pie crust!

Tasty, golden hued, so rich and tender it falls into delicious flakes at a touch. Always a certainty when you use

CALUMET  
BAKING POWDER

"BEST BY TEST"

The greatest quality value ever offered in a baking powder. It never loses its strength. It can't fail in the slightest degree; therefore, no waste—no disappointments.

The perfect results it gives—the greatest economy—provide the best means of answering the Food Cost question of today—so far as baking goes.

You Save When You Buy It.  
You Save When You Use It.

Made in the largest, finest, most sanitary baking powder factory in existence. Try it. You'll see clearly why it's the world's biggest selling baking powder—why it is given preference by leading Domestic Science teachers, millions of housewives. Once used—no other will satisfy.

## PIE CRUST FOR ONE PIE

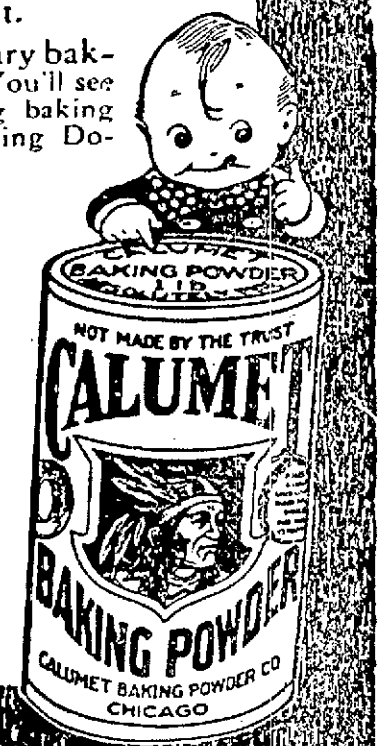

2 level cups of flour  
1 level teaspoon Calumet  
Baking Powder  
1 level teaspoon salt  
1/2 cup shortening  
1/4 cup cold water

How to make it—Sift together the dry ingredients, work in the shortening, moisten to a dough with as little cold water as possible.

Be sure to cut out and paste this recipe in your recipe book for future reference. Of the many thousands of different pie crust recipes, you'll give this "better one" your preference.

## NOTE THIS

When you buy a pound of Calumet you get a full pound—16 oz. Some high priced baking powders are now being put on the market in 12-ounce cans instead of a pound. Be sure you are getting a pound when you want it. No short weights with Calumet.

## EXCESSIVE ACIDITY

is at the bottom of most digestive ills.

## KI-MOIDS

for indigestion afford pleasing and prompt relief from the distress of acid-dyspepsia.

**BEWARE THE COCKPIT.**  
A powerful weapon has been placed in the hands of the American opponents of a league of nations by the peace conference itself. Those favoring the league had steadfastly believed, up to the time of the publication of the peace treaty, that this document would be so fair and generous in its provisions as to reduce to a minimum the causes of international jealousy and bad feeling in Europe. But now that they have time to study the terms they are driven to conclude that if Europe is to have such a peace as the statesmen at Versailles have decreed, Europe will soon be again at war. The people of the United States do not want a close alliance with the peoples of Europe if the latter are to be continuously at war or on the verge of war.

So far as the United States is concerned, there is nothing in the peace treaty itself, if the league of nations provisions be eliminated, that could lead to new wars between ourselves and our late enemies. Unhappily not so much may be said for the peace terms, as they affect the relations of Germany and the allied states of the old world.  
Thus the Saar coal basin is given to France in such a way that it seems unlikely that it will ever be as German as Berlin. It must be in mind that the Saar valley is as German as Berlin. It is provided that there shall be a plebiscite in fifteen years. But since the Saar valley is utterly German, why have a plebiscite at all? Or why not have it now? The plebiscite is to be conducted by France, and Germany will not be given an opportunity even to see that the ballots are fairly counted. Those who know anything about the rottenness of European politics will be very much surprised if a fair chance is given to the 300,000 German inhabitants of the valley to express their preferences when the plebiscite is held.

Suppose a plebiscite is held in fifteen years and Germany loses these immensely valuable coal lands in perpetuity. Does anyone imagine that the Germans would not feel themselves terribly wronged and justified in planning another war?  
Self-determination is a sound principle as we have learned through our application of it, and was wisely used in detaching thousands of German miles of territory from Germany. But millions of Germans today are asking why self-determination is denied the people of the Saar valley and German Austria. Why should millions of Germans in Austria be told that they must never ally themselves with Germany?

Americans without exception believe that Germany should be compelled to pay a huge indemnity to Belgium and France. Peace terms must only provide that indemnity, but make it all but impossible for Germany to pay it by destroying them commercially and industrially. If the conditions of existence are made intolerable to 60,000,000 people will they not be likely to attempt at the first opportunity to resort to the abatement of armaments that Germany is to be made militarily helpless. Let us not be too sure of that. The Germans are capable of inventing new methods of warfare that will not require battleships, submarines or big guns. Air navigation may be so perfected in ten years that Germany could secretly build a fleet of planes that in a few days might destroy every capital in Europe.

The senate has the peace treaty and the proposed league of nations constitution to consider. Senators should bear in mind that the American people do not wish to join a league of nations if Europe is to remain a cockpit.

**THE RESULT.**  
Janesville saloonkeepers are not going to gain anything by taking advantage of the ruling made by the district attorney and the federal officials declaring that discharged soldiers in uniform may buy intoxicants over the bar. The saloonkeepers of this city, for the most part, have been careful not to sell soldiers in uniforms anything, and much credit must be given those who have lived up to that rule. Bootlegging has been going on ever since soldiers came up from Camp Grant, but it was not the fault of the liquor men.  
But because of Janesville's location in relation to Camp Grant, the taking off the lid and selling to soldiers in uniform whether discharged or not has brought about conditions which have been anticipated. A discharged man who goes direct to his home could be sold drinks while in uniform without any chance of difficulty resulting. The next day or two he will be out of his uniform. He is home and will conduct himself as he did before he entered the service. But we in Janesville get thousands of men who are discharged and make this a stopping place. If they know they can get drinks they have a big time. They are preyed upon by those human vultures who would take advantage of a young fellow just freed from long and arduous discipline.  
In the last 48 hours drunken men in uniform have reeled from door to door of saloons. They would not do that in their home town. They do it here because they are not sure they care about it.

trict attorney has informed the saloonkeepers that they can sell to discharged men, Janesville has become known as the place where a man in uniform can get a drink. It is not difficult to show discharge papers and it is not difficult for a soldier to get a drink anyway, since the lid has been lifted.  
County and city officials should take the matter in hand at once and forestall any attempt to allow anyone, whether they be in uniform or not, to turn this community into a stopping place for those who desire to get drunk and raise disturbances. The saloonkeepers should be interested with the necessity of co-operation with the officials. It is just such trifles as occurred at the road-house that have driven the saloonkeeper who is attempting to conduct a legitimate business as possible out of business. The wise ones will stop selling to men in uniform regardless of the ruling of the government or anyone else as long as Janesville continues to be the junction point for those men who leave camp for their homes.

**USE THE LIBRARY.**  
One of the institutions which gives a service perhaps not wholly appreciated is the public library. People are aware they can get books on many subjects from such a place when they want them, but many do not avail themselves of the full facilities.  
A library to a great extent reflects the spirit of the community. It serves as a mirror in which is seen the inclinations of those who patronize it. When the public is interested in art, music or drama, the call for books on those subjects is greater than in a community that does not pay especial attention to them.

This reflection is shown locally in the last few months. Since Janesville has started on an industrial development, the demand at the library for books on architecture and building has been greater than at any time in the history of the institution. People are interested in homes; the problem of solving a housing emergency has directed the attention of many to kindred subjects.  
Many people have accepted the belief that a library is filled only with books on fiction. That it is the place where the children and grown-ups get their tales of romance and adventure. A library, equipped as the average modern institution is, contains books on a wide range of subjects. With these at hand, the good which may result through a closer relationship with them is difficult to value.

The person who has passed the school age, yet is conscious of a lack in the quantity or quality of his learning, if he has the ambition and patience, round out a very complete college course within the quiet of the library.  
The person who desires to travel—to see the world—but who for one reason or another is unable to do so, can get the nearest substitute by reading of those places which attract him. The merchant and business man can obtain information concerning raw materials, transportation, processes of manufacture, markets and other facts which will be of value to him; the farmer who wants advice concerning his crops; the mother seeking hints on the welfare of her children or the care of the home—all these have an almost unlimited source of supply.

Those who have not seen the possibilities of our library should make a visit—not merely to glance around and admire its exterior and interior appearance—but with the idea of determining the vast amount of useful knowledge which is stored away on its shelves, and then making what use they desire of it.  
**ON THE SPUR of the MOMENT**  
ROY E. MOULTON

**ANOTHER CELEB.**  
A great man is the man who fixes his own name in the history of his time. He is a man who realizes that he is a great man, he will tell you that he is before you have talked with him for three minutes. But the great man who fixes his name in history is always fixing it. He starts in to do it when there is really nothing the matter with it, and he always begins the wrong thing. After he fixes a thing that doesn't need fixing, that thing never works right until he sends his car to the factory to be overhauled. After he fixes one thing that doesn't need fixing, he is so pleased with himself that he keeps right on fixing until he has the whole internal economy of the chug chug out of place and his car makes a noise like a tin peddler's cart rattling away on a switch engine hauling a trainload of sheet-iron garbage cans over a piece of bad track. The best way for a man to fix his own car is to leave it alone. Nine times out of ten it will regulate itself.

**AN OCCUPATION GONE.**  
Maud Muller on a summer's day, Won't rake the meadow sweet with hay.

Peace has its bogie, which will get. For good and all, the farmerette. Those overalls which were so cute Won't grace the farmer's fair recruit.

For peace with Maud has raised some A returning soldier has her job.

Mrs. Elias Pettigrew, the eminent naturalist and snakeologist, has a pet blacksnake which is the wonder of the neighborhood. The snake is up to all sorts of cute little tricks and is about 20 feet long. If it were any longer no doubt Mr. Pettigrew would say so. Some time ago a culprit entered the otherwise peaceful farmyard of Mr. Pettigrew under the cover of darkness and stole the rope off the dinner bell which hangs at the top of the long pole near the kitchen door. This was very embarrassing inasmuch as Mr. Pettigrew was no longer able to ring the dinner bell and call her hungry spouse from the west eighty. The intelligent blacksnake noticed the lady's embarrassment and climbed to the pole he took the bell handle in his mouth and allowed his body to hang until it almost touched the ground. Mrs. Pettigrew grasped the pet snake by the tail and was thus able to ring the dinner bell. Every noon now the snake climbs the pole without being told. His idea of time is something very remarkable, as he is never more than two minutes too early and never a minute late.

Uncle Terwilliger says: "Opportunity knocks once at every door, but you needn't think that Opportunity is going to be a locksmith. Buy a skeleton key, unlock your door, come upstairs and pull you out of bed. Wash your face, carry your downstairs and put you in a \$7,000 racing automobile just to start you on your way."

**WHO'S WHO in the Day's News**  
LEUT. JAMES L. BREESE  
Lieut. James L. Breesee, from the bureau of steam engineering, U. S. navy department, is a member of the crew of the trans-Atlantic flyer NC-4, and as such will be mentioned when the early history of overseas flying comes to be written.  
Breesee was to a large extent responsible for innovations on all the NC motors.  
The task of installing all the motors on each plane tractor motors and one of them a pusher motor.  
During the war Breesee served as a test pilot for experimental machines and was also engaged in the development of power plant accessories and apparatus as a member of the bureau of steam engineering. In January, 1919, he was detailed to the special board, of which Lieut. Com. S. M. Knuts was the senior member, to make a study of equipment and power plant installation of the seaplanes being prepared for the trans-Atlantic flight. This is an illustration of how such member of the crews had such thorough contact with the problems that would confront him on an ocean flight.  
Lieut. Breesee is a member of the naval reserves, who is a member of the city ordinance covering the situation but it had been permitted by the state railroad commission.  
One Man Car Taken Off.  
La Crosse, May 23.—The street railway here Wednesday ceased operating one branch of its line with but one car. One man cars are a violation of the city ordinance covering the situation but it had been permitted by the state railroad commission.

Major A. Moore, surgeon, Monroe, member of the Thirty-second division staff, has been cited for exceptional meritorious service.  
Comes From Germany.  
Manitowish, May 23.—Christian Brink, a 19-year old boy who was born in Germany of American parents and who was in this country for a visit in 1908 but returned to Germany with his mother, his father having died before the boy's birth, was in the city Wednesday to settle the sale of a part of an estate left him by his father. Brink's mother is dead now and he returned to this country after the close of the world war. While here he stated that he made his home at Dresden, Germany, during the entire period of the war, and while he was a large lad even for his age he never molested by the military authorities and was never requested to serve in the army.

## ELKS' CAMPAIGN COMMITTEE WILL MEET WEDNESDAY

Joseph Scholler, exalted ruler of the local Elks lodge announced this morning that the meeting of the executive committee in charge of the Salvation Army Home Service drive would be held at the Elks' clubrooms next Wednesday evening at eight o'clock.

Mr. Scholler stated that the local Elks would have charge of the drive in Janesville's section of Rock county. "The drive is being held for the purpose of raising funds to allow the Salvation Army to erect recreational centers and clubrooms for returned soldiers and sailors and also for the work of the Salvation Army." He stated that the Salvation Army had been requested by the United States government to take over the work.

The executive committee is composed of the following Elks: Fred Howe, J. M. Corners, H. D. Murock, George S. Parker, T. E. Welsh, L. A. Avery, R. G. Cunningham, Sidney Bestwick, F. A. Capelle, W. H. Dougherty, George Thomas, J. D. Rexford, J. Cullen, V. P. Richardson, J. J. Dulin, C. A. Muggleton, H. H. Bliss, W. P. Langdon, L. C. Levy, J. E. Kennedy, M. O. Mouat, M. G. Jefferson.

## Tempting Cuts for Your Sunday Dinner

Fresh Dressed Yearling Chickens.  
Choice Milk Fed Veal.  
Home Dressed Pig Pork.  
Prime Steer Beef.  
Fresh Beef and Pork Liver.  
Home Made Fresh and Smoked Sausage of all kinds.

**J.F. SCHOOFF MEATS**  
THE MARKET ON THE SQUARE  
212 W. MILWAUKEE STREET

## Fresh Vegetables Potatoes

You will be pleased with our northern, round, white, firm potatoes.

Take advantage of this opportunity and escape the annoyance of poor potatoes at this season of the year.

The market is gradually crawling up. Better buy now. 40c pk., \$1.55 bushel.

Early Ohio Seed Potatoes.  
3 lbs. New Potatoes, 25c.

**BERRY SUGAR.**  
When ordering granulated sugar try our superfine pure cane. It will make common sugar seem very coarse.  
Cube sugar in bulk 14c lb.  
2 lbs. Powdered Sugar 25c.  
Light and Dark "C" Sugar.

**FRESH VEGETABLES.**  
The very best and properly handled. You will appreciate the quality and variety when shopping.

Good radishes are extremely hard to get. We expect some more of those tender, mild, long white and attractive little round red ones for Saturday.

Also a large supply of green and wax beans at 20c lb. Head and leaf Lettuce, Pieplant, Peppers, Green Onions, nice white Celery, new Cabbage, red, ripe Tomatoes, etc., etc.  
Large, ripe Pineapples 29c each.

**3 ANCHOR MARGARINE \$1.00**  
"We've tried anchor; no more butter for us." A remark we overheard today. Everybody likes "Anchor." Also have fresh Troco, Good Luck, and Vegaco.

3 cans Rainbow Corn, 50c.  
This is our regular 20c corn; fine flavor and very solid, dry pack. One can nearly equal to two cans of ordinary wet corn. Ask for Rainbow corn.  
3 cans Star Line Peas, 50c.  
3 small cans Sliced Peaches, 50c.  
2 cans finest large Red Raspberries, 75c.  
3 cans Sliced Pineapples \$1.00.  
3 tall cans Milk 40c.  
2 cans Tomatoes 25c.  
2 cans Red Beans 25c.

**"PAL" CHOCOLATES**  
50c BOX.  
Fresh lot this morning.  
Special: Chocolate-covered Peanuts 29c lb.  
Asst. Jelly Gums 25c lb.  
Asst. Hard Straws, 25c lb.  
A. D. Mints, 30c lb.  
2 pkgs. pink or white Marshmallows 25c.  
Johnston's special wrapped Caramels, 30c lb. Worth 40c.

## 100% PURITY QUALITY EXCELLENCE

## Drink More Pure Milk

You're never too old to gain in health and strength by increasing your daily consumption of good pure pasteurized milk.

Milk is the well-balanced food for old and young. Its elements are essential to the needs of your body.

Drink a quart of J. P. Milk Co.'s Pure Milk every day and note how you'll improve in health.

Cool, rich milk is the finest beverage.

For children, pure, rich milk is an absolute necessity.

Urge them to drink it freely—it helps them go through a day's strenuous play and work.

Milk contains many needed elements—especially for the young.

It builds bone and tissue, nourishes and builds up the body generally.

Give your boys and girls all the milk they can drink. It's the Cheapest and Best Food.

Increase Your Order for Milk Today.

## Guernsey Milk

We also sell milk from the tuberculin tested Guernsey herds of Dr. Wayne A. Munn and F. O. Uehling.

### Trained Blueberries and Wild Ones in Demand

[BY INTERNATIONAL NEWS.]  
Washington, May 23.—How about  
some trained blueberries? If you have  
any top notch wild ones, says the  
American Forestry association, get in  
touch with Miss Elizabeth C. White,  
Miss White, N. J., who is cultivating  
blueberries. She has them now as  
big as three-quarters of an inch  
through, but she wants to do better.  
The blueberry is a peculiar fellow.  
Many of the new varieties are poorer  
than the parents and about one in a  
thousand turns out better than either  
parent, which is no nice way for the  
children to do.  
Then, too, the blueberry will not be-  
have at all on a well-balanced soil.  
They require a sour or acid soil and  
are killed by fertilizer that would  
help most anything else along. Now  
Miss White has asked the American  
Forestry association to help her find  
some wild, wild blueberry plants, so  
ask Miss White for correct shipping  
instructions at once.

### Hundred Animals in Paris Zoo Die in War

[BY ASSOCIATED PRESS.]  
Paris, May 23.—One hundred animals  
in the Paris Zoological Gardens  
died during the war. After a bomb  
from a German airplane made a big  
hole in the Rue Cuvier, alongside the  
Gardens, the authorities thought it  
wise to kill the poisonous snakes, lest  
they should escape and cause a panic.  
Later the river Seine overflowed its  
banks and flooded part of the gardens,  
and monkeys, antelopes and giraffes  
developed chest complaints and died.  
Only the waterfowl flourished, but Co-  
co, the baby hippo, the pride of the  
gardens died—of ennui they say as the  
gardens were virtually deserted dur-  
ing the war.

### Artillery Estimates Increase Gun Ratio

Washington, May 23.—Artillery esti-  
mates of the war department provide  
for 108 guns for every 10,000 rifles  
per division according to an official  
made public today in which or-  
dinance equipment of this and other  
countries is compared. During the  
war the ratio per 10,000 rifles was:  
United States, 60; British, 80; French,  
103.7. Divisional artillery is taken as  
including the 75MM, 4.7 inch and 155  
MM howitzers, and equivalent French  
and British types.

### Wills Relatives Dime Each; \$40,000 to College

Burlington, Vt., May 23.—Former  
Mayor Harvey Herzy Barre, after  
cutting off his relatives, including his  
sister, with a dime each, left Tufts  
college \$40,000. His will has been  
filed for probate here.  
Herzy died at Burlington, April 10,  
aged 88 years.  
Mrs. Clara A. Templeton, Wash-  
ington, D. C., his sister, and several  
nieces and nephews, are left 10 cents  
each. Goddard Seminary, Barre, gets

### Collecting "War Taxes" Latest in Crook Schemes

Cleveland, Ohio, May 24.—It's here  
boys.  
The latest "patriotic" confidence  
game is collecting "war taxes." M. F.  
Heides is looking for the two smooth  
collectors who explained that his con-  
tribution to the national income under  
the "new revenue bill" would be ex-  
actly \$10.20. Heides paid and asked

### 2,500 Planes Delivered by U. S. Since Armistice

Washington, May 23.—Since the  
armistice was signed 2,500 airplanes  
and more than 10,000 airplane en-  
gines have been delivered by American  
manufacturers, according to a report  
made public today. Of the engines,  
1,696 were Liberty twelve cylinder type,  
and 6,209 Liberty twelve cylinder type.

### MOVING PICTURE FUNNIES

Cut out the picture on all four  
sides. Then carefully fold dotted line  
1 its entire length. Then dotted line  
2, and so on. Fold each section un-  
derneath accurately. When com-  
pleted turn over and you'll find a sur-  
prising result. Save the pictures.

### Belgians Honor Hoover; Subscription is Opened

[BY ASSOCIATED PRESS.]  
London, May 23.—Some time ago  
the king of the Belgians conferred on  
Herbert C. Hoover, the founder and  
first president of the Commission for  
Relief in Belgium, the title of Friend  
of Belgium. To commemorate the con-  
ferring of this unique title the Bel-  
gian Order of St. John of Jerusalem  
has opened a subscription for the pur-  
pose of offering M. Hoover an address,

and also a work of art symbolizing  
the life which this American managed  
to maintain in the oppressed country  
during the German occupation. The  
Belgian army joined in the movement  
and each unit has sent a subscription.  
The contribution from the army alone  
is more than \$8,500.

Anti-Peace Demonstration Held  
Berlin—A demonstration of protest  
against the peace terms was held in  
the Wilhelmplatz by the majority so-  
cialists.

## A CHANCE TO LIVE

BY ZOE BECKLEY

## THE CLOSED DOOR.

Ten dollars! Annie clutched the three-by-seven inch bit of green and white paper with the same upleap of heart a prospector feels who has sluiced out his first nugget of gold. She forgot the crying of that small child, the cost of her six days of incessant toil, following three months of merely learning to toil. She forgot that for it she had sat at her sewing machine for 54 hours her neck bent to a deep angle, her eyes fastened to the spot where the needle plunged into the fabric, her slim fingers guiding the foot and under them to the huge basket below. She even forgot for the moment the coarse foreman, whose low forehead, whose harsh loose lips so repulsed her, whose harsh voice sometimes started her into running off the seam; whose touch against her shoulder made her shrink at something vague and new that frightened her.

As she walked up Broadway and then east to her poor tenement Annie kept turning the ten dollar bill over, into meat, into flour and potatoes, into shoes for her mother, a dress for Jennie, a suit for little Jim-brother who was in his first grade of school.

What a glory! It gave you to be the mainstay of a household; Annie thought of her father and of how he always believed if you wanted a thing badly enough and kept at it, it would come. And she had longed to take care of the family as he had done, even she was actually doing it!

She ran up the shaky stairs and opened the door. The supper table was set. An oil lamp in the middle, on the red-and-white tablecloth gave a bit of cheerfulness. The lamp was a gift from Aunt Maggie. Its base was of pressed nickel and the shade porcelain, white underneath and dark green

outside. Beside the cheap china and knives and forks, there was a plate of buns and a loaf of bread—the kind that was called a "twist loaf," which eight-year-old Annie always selected because it was "pretty." On the table also was an important family trophy called the "casserole." It was silver-plated, elaborately etched in flowers and scrolls and held four bottles of condiments—oil, vinegar, salt and pepper—on a revolving centerpiece. It was one of the objects of art poor Jim Hargan had "fooled away his money on." But it was now a beloved keepsake. Annie was at the table, chewing her pencil over her next day's arithmetic lesson. Annie smelt stew and tea in the kitchen, where her mother was moving about while Jim-boy got in her way trying to "help." Everything was poor. Everything was cheap. But it was home. And tonight it was warm and cozy. Annie felt glad and gay. She rushed to the kitchen, hugged her mother and pressed the ten-dollar bill into her hand. Mrs. Hargan's thin, worried face lighted a little. But she was not optimistic. Perhaps she had been once. She put the money into the bosom of her dress and went on dishing up the stew.

"But mother—ten dollars!" emphasized Annie with two sharp nods of the head. "Isn't that a lot?"

"It's splendid. You've done won- ders, child. But I was only thinking," said Annie's mother as she put supper on the table, "what a little way ten dollars goes, with me only able now to make a couple of dollars with the needle. And there's no butter at that. I didn't dare run the bill up any higher this week. Your Aunt Margaret's already given me three. There's new sit right down while it's hot. Come, Annie, get your books off the table and let Jim's bib on. Hurry, Annie, get your things off."

(To be continued.)

## Heart and Home Problems

LETTERS MAY BE ADDRESSED TO MRS. THOMPSON, IN CARE OF THE GAZETTE

Dear Mrs. Thompson: I was married when I was quite young to a well-to-do young man in a prominent family. I had everything I wanted, a comfortable home nicely furnished and all the pretty clothes I wanted, besides a sweet little girl.

In the course of four or five years I grew to love my husband and began to flirt with other men. When my husband was away from home I entertained these other men.

One in particular was a frequent caller, and he persuaded me that my husband was untrue to me. My husband, tiring of my indifference way of treating him, found another woman and in the course of time left me for good. He allowed me to sue for divorce on the grounds of unfaithfulness and paid me all the alimony I asked for, without confessing the suit, saying he didn't want to hurt the reputation of the mother of his child.

He married again and has another little girl. My sympathetic friend, who for some time has known me, as he didn't want anyone to know he had a hand in it. Then he made advances, but never took me to public places. He finally told me he loved me and wanted to marry me. I accepted his attentions, not dreaming that he was after my money.

I married him, but I have now learned that all he was after was my money and not my father's. I am so unhappy. He has run through practically everything I had and it is all we can do to get a living. He is lazy, gets drunk whenever he can get liquor, and does everything an ordinary tough does.

I have been told that I am afraid to get a divorce, as he has as much to tell as I. What shall I do? I want my first husband back, for now I

see the vast difference between the two and I love him.

Would it be right for me to separate him and his present wife? He, too, is not happy. What do you think? EDITH.

Do not let fear keep you from helping your husband and from now on live in such a way that your daughter will have proper home conditions.

You have absolutely no right to your first husband. To try to win him from his present wife would only add one more wrong to your list. Life has taught you bitter lessons because you have made so many mistakes. It is not too late yet, however, to live in a wholesome, normal way. Let love govern the rest of your life instead of selfishness. I am sure this will bring you happiness even if you cannot have all that your heart desires.

Dear Mrs. Thompson: I am a girl of age. There is a man with me, and I want to get acquainted with him, and I would like to make acquaintance with him in secret. My parents object to my having young men friends because they are afraid they will lose me. If he works for me for a date, would it be all right for me to accept it? BROWN EYES.

No, you should not make any engagements with him unless you formally introduced. A girl compromises her reputation if she speaks to strangers.

Dear Mrs. Thompson: Would it be all right for me to kiss a returned soldier? I have known him all my life and he lives near here. I am 14 and he is nearly 18. I would kiss him if I were you. You can express your pleasure over his return in some other way.

## HEALTH TALKS

BY WILLIAM BRADY, M. D.

LETTERS MAY BE ADDRESSED TO DR. BRADY, IN CARE OF THE GAZETTE

Problem in simple arithmetic: If it requires 40,000 medical officers to give reasonably good care to the health of 4,000,000 troops, how many doctors, including men, women and children, including a health officer properly served? The answer is one hundred.

But the average American or Canadian city of 30,000 to 50,000 population cannot see it that way. For the health officer in cities of that size generally conducts his private practice as a vocation, and if he has any time between patients, dabbles with the administration of public health in his spare moments. We are not yet quite civilized, you see. Mostly we still rely on the almanac and the neighbors to advise us about matters of health. Oh, surely, we will go down in our jeans for the necessary price of protection against fire, for police protection, for prosecuting criminals, for maintaining jails and such appendances, but we ain't it awful, when we are asked to contribute a few cents annually toward the protection of our health? What's the use of squandering real money on public health protection, we ask ourselves, when the good neighbor or almanac will tell us all about it in case we do get sick or something?

The great war, observers on the inside assure us, is going to bring about all kinds of revolutions. When the troops get back home the old order has got to change and numerous desirable reforms are going to be started. The forecast has been made freely in the past few years, but the great war is about over, the soldiers are trickling back home, and the same old conditions obtain.

However, as a Gargantuan colleague used to say, there is hope. More and more people are beginning to suspect that after all, there may be a grain of truth in the proposition that "public health is purchasable"; at any rate more and more communities are investing in it nowadays, timidly at first, but investing.

It is just as hard, requires just as much knowledge and skill and work to maintain the health of 100 persons at home as it does to maintain the health of 100 persons in an army camp. And the health and life of the individual at home are just as important as the health and life of the soldier. To expect one officer to look after the health of 30,000 persons is absurd and impractical.

The principle is wrong; the practice is wasteful. In that city of 30,000 persons there are at least 50 other health experts equally competent to guard the health of the people. Why not make use of their services, since they are right there on the job all the time?

Every reputable physician in practice should be the health officer of his people. As a matter of plain common sense, we can never hope to really enjoy the benefits of efficient public health administration until every reputable doctor is made as responsible and as in-

## THE HEALTH OFFICER TOMORROW.

terested as the lone health officer of the town is today.

## QUESTIONS AND ANSWERS

Tell Me to Noah Webster

For a week I have faithfully sought and the results far exceed my expectations. With the exception of a skinned ankle, a couple of lame shoulders, a bruised back and a black eye, they leave nothing to be desired. You see, some say and some are not. (Miss L. M.)

ANSWER.—I suppose you consulted Dr. Noah Webster on ways and methods. Dr. Webster was all wrong about somersaults and anyone who adopts his method need not come complaining to me. Somersaults are nice comforts, but repeating rolls, and you can't possibly skin, bruise or lame anything just by rolling about on the floor.

Magic Working With Food. What are the results of one taste to prevent food from turning into flesh instead of turning into blood? (B. J. F.)

ANSWER.—Eat less food, masticate it more thoroughly, and include in the diet a liberal allowance of fresh green vegetables, relishes and plain grains.

Blood Tests Made for Many Conditions. Is it true that blood tests are made only for syphilis? Our family doctor sent me a throat spasm to have my tonsils removed and the specialist seemed to think it was remarkable that I had not had my blood tested. I took it up with my family doctor and he declared that some specialists are ultra-scientific to the point of absurdity. What is your opinion? (Miss B. R.)

ANSWER.—If your family doctor is worthy of your confidence at all his advice regarding any blood tests would certainly be better than the advice of a throat specialist. Various tests or examinations of the blood are made for many different conditions.

THE FEUD. (Synopsis of preceding chapters: For forty years Pure Grass county, Virginia, has rung with the renown of the famous Slupkins-Golff feud. Away back in the beginning it had started when Slupback D. Slupkins turned suddenly on his penknife with one of the blades broken, and Abbot Golff, whipping out his pistol shot him through the clatticle. Since that day barely a week had ever passed without a Slupkins shooting a Golff or vice versa. And now only one of each family remains, Pridden R. Slupkins and Yawson Golff.)

Conclusion. Darting from behind the big mossy tree that obscured the sunset in front of the old Golff mansion, Pridden R. Slupkins waved his white handkerchief, violently Yawson Golff pocketed his gun and came out from under the fezz bush.

"Look a-yeah, Yawson Golff," explained Slupkins, "you-all thought of something? Have you-all thought that when one of us two

## DEMURE GOWN FOR THE YOUNG BRIDE

By ELOISE.

The fast approaching month of June will bring new ideas in wedding gowns and veils. The war weddings of the past few years have had little need for the white filmy costume and June has been quite overdone with the white. In all the haste and turmoil, weddings were held in any month, at any hour, or on any day, and it might be said in almost any gown from the bloomers of the costume of the last year's party dress of the debutante.

But now things are getting back to normal and the month of June is coming back into favor as the wedding month. The future brides are choosing white stuffs for their wedding gowns and long trains, full veils and all of the marks of formal weddings are being in style.

This net frock was created for the very young bride. Flowers and ruffles of tulle trim the skirt and give an air of lightness and fullness to the flounces. Green leaves are applied on the petticoat and white satin ones are applied on the long veil. A wreath of orange blossoms holds the train in place and a cluster of the blossoms is fastened at the waist. Demure, indeed, is the little round neck and the little puffs at the shoulders. If he works for me for a date, would it be all right for me to accept it? BROWN EYES.

No, you should not make any engagements with him unless you formally introduced. A girl compromises her reputation if she speaks to strangers.

Dear Mrs. Thompson: Would it be all right for me to kiss a returned soldier? I have known him all my life and he lives near here. I am 14 and he is nearly 18. I would kiss him if I were you. You can express your pleasure over his return in some other way.

shoots the other, the survivor will have to settle down just like a common, ordinary citizen with nobody to shoot or nothing to do, and no reason to pick out on these year streets as a county character?"

At the very thought Yawson Golff, whose heart never was of the sort, felt, cooled over down into the bush, and, being unable to face the nonplace security and law-abidness, nonplace security and law-abidness, the only remaining Slupkins mortally shot himself through the small of the back.

## Americans and Yankees.

Although Canada is part of the continent of America, the name American is usually limited to citizens of the United States. A real Yankee is supposed to have been born and raised in one of the New England states, but outside of this country the name is applied indiscriminately to people of the United States.

## Household Hints

## MENU HINT.

Breakfast. Sliced Bananas and Cream. Fried Tomatoes and Cream Gravy. Toast. Coffee.

Lunch. Sardine and Potato Salad. Rye Bread. Tea.

Dinner. Olives. Lemonade Pickles. Pot Roast in Brown Gravy. Mashed Potatoes. Asparagus. Lettuce. Coffee.

Tapoca Pudding.

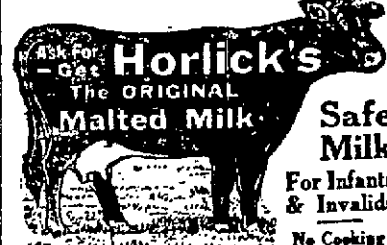

## INSTEAD OF STEAKS, CHOPS AND ROASTS.

Brains.—When purchasing brains see that they are bright in color and fresh. The brains of beef and calves are more commonly used except in the south, where the preference is given to sheep's and lamb's brains. To prepare them blanch the brains in salted ice cold water and let stand until firm. Then wipe dry. For fried brains—slice the blanched brains into pieces of uniform size, add pepper and salt, roll in beaten egg, to which has been added a tablespoon of water, then in fine crumbs. Let stand in a cold place for half an hour and fry quickly in deep fat. Drain and serve hot.

Heart.—When purchasing see that the fat around the top is clear and crisp in appearance. Calf's heart is smaller than that of beef, but is more tender and delicate in flavor. Lamb's heart is usually sold with the lungs.

Stuffed Heart.—One beef heart, one cup of bread crumbs, one teaspoon chopped onion, one-half teaspoon of chopped parsley, one-quarter teaspoon of salt, one-eighth teaspoon of pepper, three tablespoons of bacon fat. Wash the heart inside and out, then cover with water and let it simmer until tender. Drain and fill with a stuffing made of the other ingredients. Into the bottom of a casserole put a layer of minced onion and tomato and half a cup of boiling water. Place the stuffed heart on the onions and bake slowly until tender, basting occasionally with the gravy. When done, force the onions and tomatoes through a sieve, thicken with browned flour, and add brown stock if needed. Season well. Add a few drops of kitchen bouquet or other savory sauce.

Kidney.—Kidneys from beef, veal and lamb are used. A good kidney is light in color and firm to the touch. If dark red, it is less choice. If dark and soft, it probably is from an old or poorly fed animal. Veal kidney is considered the most delicate in flavor. If they are not perfectly fresh the

A Nutritious Diet for All Ages. Quick Lunch; Home or Office. OTHERS ARE IMITATIONS.

## Hair Often Ruined By Washing With Soap

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary mulstified coconut oil (which is pure and greaseless), and is better than the most expensive soap or anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mulstified coconut oil at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.

## SIDE TALKS

—By— RUTH CAMERON

## GIVING SERVICES OR SELLING THEM.

How many people do not realize the difference in the quality of work demanded from the paid and the unpaid worker?

A man who has a very capable wife was talking to me one day about what she would do if anything happened to him.

"I'm sure [she] would be perfectly capable of supporting the children," he said. "You know she's a mighty smart woman."

Naturally I agreed and then ventured to ask just what line of work he would expect her to take up.

He thought she would step into a Good Executive Position.

"Well, I think some good executive position would be the sort of thing she'd shine in," he said. "You know she's been treasurer of the D— Club for four years and she was president of the Y— (naming two large women's clubs) for two terms, and you know what she's done in war work, and she's already running some big affair and making a howling success of it."

She ought to step into some good executive position.

Now his wife is a very smart woman and doubtless the work she has done would be preparation for executive position from one and encouragement from another. This organization is the philanthropy of wealthy women, if so it does not have to show results. It was a business how long would it last, or, rather, how long would the present employees last?

I'll leave the answer to that to any real business woman.

Shop in the Gazette before you shop in the stores.

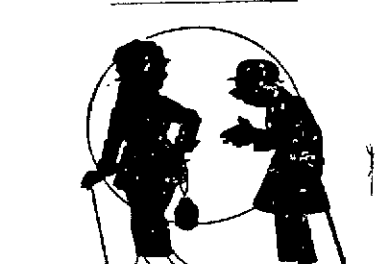

quarters maintained by one of the host women's clubs in the country. The woman in charge was chatting with two visitors. My mother and I waited several moments, standing up. Then she procured my mother a chair from behind a table and we waited two or three minutes more but finally left without having received any attention from the woman in charge. To be sure, she was busy with someone else but if she had been hired by a business organization, would that have excused her for not managing her home while she disposed of the other visitors? Hardly.

How Long Would These Women Last ON A Real Job?

Again, there is a certain organization in one of our large cities which aims to find positions, other than teaching, for college women. I know of several women who have gone to this organization in vain. In one case a woman wanted to teach millinery. They knew of no opening and discouraged her. She has since found an excellent chance. Again another woman asked what the call for women in banks was. They gave a discouraging report. She wrote to three bank presidents and received an offer of a position from one and encouragement from another. This organization is the philanthropy of wealthy women, if so it does not have to show results. It was a business how long would it last, or, rather, how long would the present employees last?

I'll leave the answer to that to any real business woman.

Shop in the Gazette before you shop in the stores.

THE IDEAL REASON.

He—Lately I have fallen into the habit of talking to myself.

She—Oh, that accounts for your looking so bored.

## Pleasant Fields Of Holy Writ

THE INTERNATIONAL SUNDAY  
SCHOOL LESSONS  
Second Quarter, Lesson VIII: Jonah  
III 1-17 Luke XIII 1-5; Acts II  
37-38 May 25, 1919  
Golden Text: Repent ye and believe  
the Gospel. Mark I 15.

### REPENTANCE

The book of Jonah is a ring of gold curiously given with mystic voice of ship and city, fish and land, but what gives it its great value is the solitude with which it blazes. The gem is the infinite love of God. That is the jewel which the ring clasps and displays to the greatest possible advantage. Four centuries at least before John said it categorically Jonah said it in a pictorial way—"God is Love." That he should send his prophet out to die to a heathen city reveals as in a diamond, flash the witness of God's mercy; that he cared at all to have an alien city repent; that he could condescend to a condition of grace so pitiful that it could not discern right hand from left; and that his tender compassion descends even to dumb brutes—none of the great religions of antiquity flash such light on the character of Deity! Scarcely any other part of the Old Testament does as much. That is what makes this book of four scant chapters, totaling only forty-eight verses, one of the most precious ever done with a pen, making it "all men's book" as Carlisle once called the Book of Job. "That such a piece of literature could exist in the butt of a man's wit is a marvel. Yet another book in the Bible has been so ridiculed. It has been considered the vilest, the weakest link in the chain which reduces the whole to average so disastrous. If the red volume in the Bible is the best of the writing itself and the spiritual theological frame-work which with the best intent it has been surrounded, the results would not have been better employed have fallen to tithing the mint and cummin, measuring wheat and estimating the power of the human will, to neglect the divine will is a marvel. Yet the light of Jonah illustrates the inveterate and narrow-hearted prejudice from which even a prophet could not free himself. What happened to him shows in a dramatic way the higher going contrary to the divine purpose. As well hurt oneself against Pillars of Hercules. Heathen sailor and heathen citizen appear in better light than holy prophet. The sailors are not so prejudiced as they cannot see the God of Israel and the Ninevites repent. \* \* \* But Jonah's prejudice carries him to deeper depths. Nineveh's repentance disappoints him. He would rather die than have his name saved! Another object lesson must be given him. The prophet is revealed to himself as more regretful over the withering of a gourd than the ruin of a city. A gourd is a thing of growth and helplessness, women and children. \* \* \* The abrupt close of the book is its most impressive feature. It has been aptly said that Jewish prophecy is a victor in the severest struggle against itself.

### THE TEACHER'S LANTERN

In this instance spiritual truth is more important than historical fact. It is better to know that the love of God is all-embracing than that a man could lie in the whale's belly seventy-two hours and live to tell it. \* \* \* To stake the credibility of the whole bible on the credibility of one incident is the smallest of sins. \* \* \* It is not true then the bible as a whole is not to be believed—that would seem extremely unwise. Such method would not be adopted in criticism of other literature. \* \* \* The graphic style is well illustrated in the cry of the ship-master, "What meanest thou? O sleeper arise and call upon thy God!" \* \* \* Heathen sailors showed less prejudice than this prophet. They prayed to his God. \* \* \* Jonah's prayer which is also a psalm deserves place in ritual and pulpit. \* \* \* No finer example of the conditional nature of prophetic announcement can be found. When Nineveh repented God repented. \* \* \* Heathen sailors had enviable traits like the "good Samaritan." St. Paul asks "What advantage hath the Jew?" and then answers "much to him was committed the oracles of God." But Jewry held truth as almsman. Great was to be the company of publishers. \* \* \* Jonah is a tract on Foreign Missions. \* \* \* Prof. James M. McQuay of Toronto declares Jonah, in some respects, the greatest book of the Old Testament while Cornell of Konigsburg says he has read the marvelous book a hundred times but cannot take it up without tears coming to his eyes. \* \* \* The fourth chapter is the climax. The question "Should not I have pity?" ends it. Nothing could surpass the effective abruptness. \* \* \* High watermark of prophecy is reached! Pattern within a pattern—nothing need be added. \* \* \* Repentance without amendment is like continual pumping without mending. \* \* \* The book is a lesson in wisdom, but Luke repentance is never too late. \* \* \* True repentance looks upon the past with weeping eye and on the future with watchful eye. \* \* \* If you would be good, first believe yourself bad. \* \* \* The greatest of all faults is to be conscious of none. \* \* \* Repentance is sorrow converted into action. \* \* \* Judas' repentance was like ice broken by still. Peter's repentance was like ice melted into tears. \* \* \* Repentance is the heart broken for and from sin. \* \* \* There is no way to the fair heaven of heaven except through the Strait of Repentance. \* \* \* Weeping Cross is the way to Heaven. \* \* \* If repentance is daily then the dying day has only one more sin to repent of and short reckonings make long friends. \* \* \* The Greek word "straphete" rendered convert means "face about" as the ship reverses its course or the flower turns to the sun. \* \* \* The fable says a certain horse ran away in the morning, but returned at night. Whereupon the owner upbraided him sharply. The horse replied "But I've returned haven't I? You have your horse." \* \* \* Lorenzo Dow said quaintly "Death-bed repentance is burning the candle of life in the service of the oil of sin, blowing the snuff in the face of heaven."

### YOUNG PEOPLE'S DEVOTIONAL SERVICES

## Milton News

Milton, May 22.—Northwestern college, Watertown, defeated Milton college on the local diamond Tuesday, by a score of 8 to 2. The game was a struggle out to and gave no base on balls. Randolph for Milton allowed only six hits, three of which came in the sixth inning and three however, and had poor support, errors figuring largely in the other scores. Major L. A. Phillips, recently returned from overseas service, umpired the game.

**Children to Give Play**  
The pupils of the graded school will present the play of "The Freshman" with an all star cast and high class vaudeville between acts, at college gym, Thursday, May 29.

**Persons**  
Sergeant Laurence Dybeck on his return to Jefferson, Wis., was discharged from the service and now has position as chauffeur at Jackson Center, Ohio.

Dr. G. K. Cresley was a visitor in Madison, Wis., Tuesday and Thursday. The funeral of the late Joseph Hume was held from the Congregational church Monday afternoon, Rev. H. H. Burdick officiating.

Mrs. J. D. Bond, who spent the winter at Los Angeles, Calif., is expected home today.

## KOSHKONONG

Koshkonong, May 21.—Janesville visitors Monday were W. E. Miller and family, Emma and Mary Rodt, Mrs. George Barnhart, Miss Doris Chamberlain, Mrs. Frank Shuman and Caroline.

Mr. and Mrs. August Dorn, Emma and Carl Dorn and Will Splitter, Newburg, and Mrs. August Groszklaus and Arthur Krueger, Janesville, were visitors at Max Dorn's the first of the week.

Mr. and Mrs. Richard Halferman, Janesville, Charles Shuman and family, Whitewater, spent Sunday with their parents, Mr. and Mrs. Frank Shuman.

Mrs. L. Vogle, Lenora and Ira went to Jefferson, Friday, to spend two days with her parents, Mr. and Mrs. Robert Probst.

Mr. and Mrs. Mont Stone and Peter Grayson attended the funeral of George Mackay at Milton Junction, Tuesday afternoon.

Miss Selma Funzel attended the home-coming of the Ft. Atkinson soldiers Saturday evening.

Miss Esther Kraus returned from a visit with her brother, Arthur, near Port Atkinson.

Miss Selma Funzel spent Tuesday night at the Ralph Marquardt home and attended the class play of the Milton high school.

Mr. and Mrs. Miller and family attended the class play of the Milton Junction high school Saturday evening.

C. L. Vogle, Ethel and Mabel went to Jefferson, Sunday, to bring back Mrs. Vogle, who was visiting there.

Little Anna Dorn is stopping with her grandparents, Mr. and Mrs. August Groszklaus in Janesville for a few weeks.

Mr. and Mrs. Robert Loosh of Janesville spent Sunday with her sister, Mrs. A. G. Shuman.

Peter Trauner and son shipped a young bull this week to Charles Flume and sons, Cashton, Monroe county, to head their herd of milking shorthorns.

John McCann and County Agent Achesson of Janesville were in this vicinity with cattle buyers from Dodgeville, Iowa county, on Wednesday looking over the milking shorthorn herds.

## UNION

Union, May 22.—Misses Jeanie and Alice Murray have returned to their home from Rochester, where Miss Jeanie Murray has been convalescing for several weeks.

Frank P. Dillard, Clyde Johnson, Leo Murray, and Charles Murray motored to Janesville, Monday night.

Mrs. Bert Lay visited at the home of Mrs. George Hyne, Tuesday evening.

Mrs. Albert Julsoth motored to Stoughton, Tuesday, to attend the funeral of Mrs. Stendahl.

Mrs. Laurence Dillard and Mrs. Ed Jorgenson attended the vocal recital given by Miss Lucile Johnson and Marlowe Smith at Evansville, Tuesday night.

The bricklayers have finished their work on the two sios for C. F. Jorgenson.

Mr. and Mrs. Vern Crawford and Mr. and Mrs. John Crawford motored to Janesville, Monday, to see the home coming of Company M.

George Severson made a business trip to Brodhead, Wednesday.

Mr. and Mrs. Albert Sells visited at Edward Kobersteins the first of the week.

Mr. and Mrs. Paul Halvorsen, Mr. and Mrs. Chester Miller and Miss Mary Louden motored to Janesville, Monday evening.

Mr. and Mrs. Lyman Gilles and Mrs. Ben Hansen motored to Janesville, Wednesday.

## FOOTVILLE

Footville, May 21.—Miss Estella Tripple has been visiting friends in Beloit.

Word has been received that Max Kennedy landed safely in New York, after many months spent overseas.

John Langdon and Mr. Tripple are reshingling the buildings on the P. F. Ryan farm, east of town.

The Footville White Sox are going to have their hands full when they tackle the fast Rockford Maroons Sunday at Footville. Word comes from the Soldier city that Manager Ross has added another star pitcher and a semi-pro, first, baseman to his string of stars. The Maroons trimmed the Idgerton team, 10 to 1 Sunday.

The Children's choir will meet at the church Saturday afternoon at 2 or 2:30 o'clock. Mrs. Will Timm and Miss Nellie Johnson are giving their time to instruct the children free of charge.

Paul Matice is in Chicago, having resumed the position he held at the time he entered the service.

Fred Honeysett's family and James Honeysett were among those who were in Janesville Monday afternoon.

Joshua Crall is in town and is the guest of his relatives, Clifford and Clarence Owen.

There was a large crowd at the dance Tuesday evening, many attending from out of town.

Durand Owen and Art Schroeder were among those who were in Janesville Monday afternoon.

Mrs. James Meehan will leave on the noon train Thursday for Petersburg, S. D., for an indefinite stay with her daughter, Mrs. C. D. Andrew, whose home is near that city.

## Razor and Thread Come in Handy for War Nursing

[BY ASSOCIATED PRESS.]

Drama, Macedonia, May 23.—With a razor, a spool of cotton thread, and a small portion of ether and chloroform Miss Maria P. Kouroyen, an American Red Cross nurse, performed a life-or-death operation here as the result of which and her other errands she has come to be known as "the American angel" by the homeless and starving Greek refugees.

Born of Greek parents, Miss Kouroyen is a graduate nurse of the Massachusetts General hospital in Boston. Because of her knowledge of Greek the American Red Cross sent her to Macedonia where typhus, small pox and cholera tread on each other's heels and where the refugees bury their dead beneath the dirt floors of their shell-shattered shacks so that the bread cards of the dead member of their family shall not be taken up.

A Greek soldier, one of whose legs had been crushed, was brought to her on a railroad siding in which box car on a raised siding in which he lay for some time.

Miss Kouroyen spent no time in talking. Borrowing a razor from Lieutenant J. Cobb, Denver, Colo., Miss Kouroyen anesthetized her patient with her small supply of ether and chloroform, and performed an amputation using cotton thread to "tie off" her arteries and veins.

Despite the prophecy of a local doctor that the aged patient would not live through the night Miss Kouroyen sometimes later received a visit from her patient. He had an American artificial limb made for him in the American Red Cross artificial leg factory for Greek war mutilates in Athens.

## Orfordville News

Orfordville, May 22.—T. E. Tollefson and Charles Taylor transacted business in Janesville, Wednesday.

Four of the members of the graduating class of the Brodhead high school are Orfordville girls. They are Florence Ashby, Cora Thompson, Ella Roen and Katherine Stevens.

A company of county road workers is improving the condition of the highway through the village near the Bart Taylor farm. They are lowering the hill.

Several from Orfordville went to Brodhead Thursday evening to attend the class play.

E. J. Taylor has been receiving a large amount of wool during the past few days.

The business men here are discussing the wisdom of joining the cities of Beloit and Janesville and Monroe in the establishment of an auto express running between these points and delivering goods on regular schedule time.

## ROCK PRAIRIE

Rock Prairie, May 22.—Dr. McCrory, D. D., will preach at the U. P. church, Sunday. Dr. McCrory will stop over on his way to the general assembly at Monmouth, Ill.

## C. O'S ARE RELEASED IN LARGE NUMBERS

[BY ASSOCIATED PRESS.]

London, May 23.—Conscientious objectors in increasing numbers are being released from English prisons but there are still about 500 Quakers and other objectors to military service who are working out hard-labor sentences. Altogether 6,135 men have resisted the British military service acts and 5,600 of them have been court-martialed. Since the armistice 240 men have been tried by military courts. Sixty-three objectors have died since being arrested, and the beginning of conscription there has been considerable agitation in the press and elsewhere against the measure taken to punish conscientious objectors. With the signing of the armistice, the friends and supporters of the "C. O.'s" as the conscientious objectors are referred to in English newspapers, became unusually active, and their efforts to persuade the government to release the prisoners have been unflagging.

One of the most prominent of the Quakers serving in English prisons is E. D. Laddum, who is well known for his researches in chemistry.

The argument advanced for still keeping the C. O.'s confined is that they would be a bad influence on the men who are unable yet to secure demobilization from the army.

## WEBSTER WOULD LIKE W. S. S., SAYS STEVENS

Daniel Webster defines thrift as "a thriving condition; prosperity; success; good fortune." To thrive, according to Webster, is "to win success by industry, economy, and good management; to increase in goods or estate."

This is the message from M. T. Stevens, publicity director of the War Savings stamp campaign, Milwaukee.

"Thrift is the basis of good management of the business of living, care and prudence in the management of one's affairs, setting the most for one's money, time and strength."

Thrift, carefully analyzed, manifests four elements, three outstanding qualities: spending or cheating; saving or conservation; investment or accumulation.

The three qualities indicated are: frugality or carefulness; economy or good management; judgment or wise decision.

And the three products notably resulting from thrift practices are: security of the state; prosperity of the community; sovereignty of the individual.

In war savings stamps may be found a double-action device by means of which governmental needs are met and filled with the best of effects for the individual and group investing. War savings stamps comprise a carefully planned and executed instrument for the inculcation, promotion and fostering of thrift on the part of United States citizens. Thrift stamps, 16 of which may be exchanged for a war saving stamp, and which cost but a quarter each represent the best, easiest and most promising of rings on that precious thrift ladder which leads to glad financial skies.

French Aviator Enters Race  
St. John, N. H.—Léon Delmoison, French aviator, has entered the race for the London Daily Mail's \$50,000 prize for the first trans-Atlantic air flight.

for the London Daily Mail's \$50,000 prize for the first trans-Atlantic air flight.

## FORTY YEARS AGO

The Janesville Daily Gazette, May 23, 1879: Bradford—Mr. William Scott of this town, fell from a load of hay today and received serious injuries. Dr. Palmer of Janesville was immediately called who is now attending on him.

Mrs. Case, who lives on the corner of Center and Lynn streets, met with a serious accident yesterday afternoon. She accidentally fell from the porch of her house, and fell in such a manner to break her right ankle. Mrs. Case is about 75 years of age, which makes the injury doubly serious.

Miss Gemma M. Atwater, of the Milwaukee Reading club, gives a reading tonight at the M. E. church. Mrs. H. A. Smith and Miss Patterson will take part in song. The entertainment is under the auspices of the Ladies' Extension society. Refreshments will be served.

The funeral services of Mr. Almon Ruggles were held this afternoon at the residence of his son-in-law, Mr. S. B. Clemmons on Cornelia street. Mr. Ruggles had been a resident of this city for 32 years, and had a large number of friends in the city. The funeral services were held at the All Souls church give the fifth and last of their series of socials at the church parlors this evening. "The Nine Points of the Law" and other features of interest are on the program.

Remember, it is absolutely important for you to get the right corset for your figure. The proper fit of your apparel depends upon it.

Our expert corsetiere will be glad to fit you with a suitable model at the price you want to pay.

Corset Section South Room.

## Famous Hunter and Cattleman of West In Early Days Meet After Forty Years

Hot Springs, Ark., May 22.—(Special.)—Back in the early days of the '70's, before railroads were known to Texas, in the days when the great Panhandle was truly a "no man's land," a young American was killing buffalo, selling their hides for a living and making a name for himself as one of the most daring of the younger pioneers in the "Lone Star State."

About the same time another young man sold out his cotton plantation and came into Texas. He invested his capital, which amounted to \$3,000, in the cattle business. He had a vision that the latter industry would prove the most profitable. History has attested to the wisdom of his foresight. The lad who was killing buffalo kept at that occupation until the Indian war of 1874 broke out in Texas, when he became a government scout under General Nelson A. Miles. Later he moved his buffalo camp to what is now Dodge City, Kansas. He had that camp there before other early settlers came. Dodge City grew up with him and not he with the town. Later the citizens of Dodge City elected him sheriff. Today he is recognized as one of the picturesque and fearless characters of the days of the early west.

These Men Were—

The foregoing serves to introduce, first, W. B. "Bat" Masterson, now of New York, vice-president of one of the special agencies on the New York Morning Telegraph, and, secondly, Col. George W. Littlefield of Austin, Texas, one of the most wealthy men of that state, and about the only surviving cattle driver of the early days of the Panhandle.

Probably no greater surprise was ever mutually enjoyed by any two men than that which came to "Bat" Masterson and Col. Littlefield here recently when they met for the first time in more than forty years.

"I can very easily recall the days when Littlefield and his men, driving their cattle from Texas up to the Dakotas, used to stop at Dodge City," said Masterson, "and our outfit was regarded as the best that had charge of a herd on the 'longhorns.' No men were regarded with more respect than those Col. Littlefield employed. We were always on the 'go' and carried better Winchester, were surer shots and more equal to any emergency than his. There was something about him. The old town knew they were there. It was back in those days, while I was sheriff of Dodge, that Littlefield and his men made the first acquaintance. That was long before the railroads came into that section of the country."

Why "Bat" Left Kansas.

"Bat" Masterson remained in Kansas until the state legislature of '81 went on a rampage, as he expressed it, and passed the state-wide prohibition law, which led to what has been called a mad dog query. "What's the matter with Kansas?" when he threw his belongings into his "war bags" and selected Colorado as his residence. For the past sixteen years he has lived in New York.

W. B. "Bat" Masterson, at left, and Col. George W. Littlefield, snapped at Hot Springs where they met.

Col. Littlefield is one of the most noted men in Texas. Today he has, in connection with his nephew, J. P. White, in Hockley and Lamb counties, in that state, a ranch of 300,000 acres, all under fence on which more than 15,000 fine Hereford cattle are grazing. A firm believer in the cause that prompted the southern states to array themselves against the north in the days of '61, he served with Company I, Ninth Texas cavalry, known as "Terry's Rangers," and he gave to the south the best that was in him. On Dec. 28, 1863, at Mossy Creek, east of Vicksburg, a shell burst and inflicted a very painful wound in his left thigh. While prostrate on the field of battle his commanding officer rode up, though he was unable to arise and return the salute, and promoted him to rank of major for gallantry in action.

Aids Educational Institutions.

This note Texas is a firm believer and supporter of all projects of an educational nature. It was Col. Littlefield who made possible the purchase of the famous Wrenn library in Chicago several years ago. He gave his check for \$225,000 for that famous collection of books, and then spent \$8,000 in order that the library might have an adequate and consistent setting in the university.

He has also given \$50,000 to make

possible a history of the south, which is to embrace the period from 1860 to the present time, and which is to be written by the professor of history of the University of Texas. With that bequest is also another contribution of \$100,000, which is to be used to establish a chair in the University of Texas.

When war with Germany was declared the government asked the universities of the country what they could do to assist the nation. That query came to the University of Texas. Col. Littlefield loaned that institution \$300,000 to establish a school for automobile mechanics, and another \$500,000 to provide for the Penfield aviation field in Austin, Texas.

Honors Jeff Davis.

His love for the old south and what it represented is reflected in his contribution of \$50,000 to make possible the memorial local auditorium and Jeff Davis, which is now being built at the old Jefferson Davis home, Fairview, Ky.

Col. Littlefield has now retired from active business. Last January the board of directors of the American National bank, Austin, at his urgent request, relieved him of the duties of president of that institution and elected him their chairman. He founded that bank in 1890 and erected the building in which it is now located.

or telephone to him and make sure that you have the Gazette delivered to your home daily.

## EVANSVILLE SOLDIER HOME FROM FRANCE

Raymond Estes arrived home on the evening train Thursday, after serving his country on foreign battle fields. Mr. and Mrs. T. J. Estes, two sons, Raymond and Glenn, both enlisted in company M in 1917, both under 18 years of age.

Miss Laura Hille received a telegram from her brother, Leslie Hille, of the 123rd M. C. D., 33rd Prairie division, that he had arrived in this country from overseas and would be mustered out at Camp Grant.

Rev. O. V. Smith was an Elkhorn visitor, Wednesday.

Mr. and Mrs. Frank Granske announced the arrival of a daughter, Thursday.

Mrs. Peter Garry and Mrs. J. Tierney spent Wednesday in Janesville, the guests of Mrs. E. H. Meely.

Miss Laura Morrison, Chetek, is the guest of her sister, Mrs. Roy Fellows.

Fred A. Baker has gone to Denver, Colo., where he will join the 1st Cavalry and party, who are motoring from California, and he will return home with them.

Miss Elvira Andrews is expected to arrive home soon from Ohio, where she has been spending the winter with her sister, and will open her home on Church street for the summer.

Miss Ruth Wilson, who has been the guest of Mrs. Annie Greene, has gone to Madison to visit friends.

Mr. and Mrs. Charles Van Wart left the first of the week on an automobile trip to Waupun, Waupaca, and Chetek.

Miss Helen Bester will resume her positions as chief operation in the telephone office, Monday next, after an illness of several weeks.

Levi Duncomb has returned from a two days stay in Milwaukee.

Mrs. Delbert Smith and son, Phillip, Brooklyn, were recent Evansville visitors.

## WHITEWATER NORMAL STUDENT SUCCEUMBS

Whitewater, May 23.—Martha Larson, daughter of Mr. and Mrs. Lars Larson, died at the home of Miss Lillian Godfrey, Thursday, after a week's illness. She was a student at the normal, taking the course preparation for teaching. Brief services were held at the home this morning. The normal faculty and students accompanying the body to the station. The funeral will be held at 10 a. m.

The local Methodist church has raised \$15,000 for the centenary fund. Miss Lucy Baker has recently been appointed by the Wisconsin Music Teachers' association a member of the board of examiners of state public school music teachers.

Miss Marion Pierce, language teacher in the high school, was called to her home in Elgin, Thursday, by the death of her father, who was in a hospital in Chicago.

Miss Nellie Green has returned from a visit of several days with Milton and Margaret Hasford spent last week with Mr. and Mrs. John Partidge, Milwaukee.

Fred Duncomb has gone to Chicago to work for the Pratt Auditing company.

Mr. and Mrs. Levi Thorne spent the week end with their daughter, Mrs. Otto Schoen, Rockford.

Pollack Bros. are agents for the Gazette in Whitewater and will deliver your paper each evening at 7:00 o'clock. Complaints and orders should be reported to them personally or by phone.

## JUST FOLKS

By EDGAR A. GUEST

THE BIGGER PLAIN.

Self looms large in the life we plan. But what do we do for our fellowman? What do we plant and what do we sow? For the joy of those we may never know?

How many smiles we may never see. In a kindly way have we caused to be? Our home is glad and our life is fair. We have bravely stood to our days of care.

But what have we done in a larger way? For the flag and the land that are ours today?

We have life to spend, we have days and hours. And the right to buy what we choose is ours. We must take for gold or we may toil for fame. May win whatever we may wish to claim.

Grew great in honor and truly own. The stars have sought for ourselves alone. But we still have lived by a selfish plan. If we haven't thought of our fellowman.

And never have turned, in his hour of need. To brighten his life by a kindly deed.

There may be no stain on the joys we know. On the things we treasure no shame we show. We may think heads high, with our records true. And take great pride in the deeds we do.

But we haven't lived to a noble plan. If we've no thought for our fellowman. If into the dream we have cherished long. There has been no gleam of a righted wrong.

No thought of a happier world to come. When our hands are still and our lips are dumb.

We must spend our lives for the ones we love. But we still must cherish the flag above. We must work for joys that our own may know. And follow our dreams as we come and go.

And none may ensure the choice we make. Or the deeds we do for our loved ones' sake. But we shall be judged, when our souls have flown. By more than the way that we have served our own.

For we shall have lived to a selfish plan. If we've had no thought for our fellowman.

U. S. LEGATION AT COSTA RICA BOMBED

Washington, May 23.—An attempt was made to demolish the American U. S. legation building at San Jose, Costa Rica, Monday night, by a bomb, according to advices today to the state department.

The bomb was placed near the entrance to the legation reception room, but its explosion caused only slight damage.

The legation is in charge of the American Consul Benjamin T. Chase.

## WAR RISK ALLOTMENT FUND IS PASSED

[BY ASSOCIATED PRESS.]

Washington, May 23.—The senate today passed without debate or amendment the deficiency appropriation bill adopted yesterday by the house carrying \$45,000,000 for war risk allotments to families of soldiers and sailors and for dependents of civil war veterans. The measure now goes to the president.

Prince of Wales to Visit Canada in August

[BY ASSOCIATED PRESS.]

London, Thursday, May 23.—The Prince of Wales will visit Canada probably in August formally to open the new parliament building in Ottawa.

## EDGERTON PEOPLE VISIT IN STOUGHTON

Edgerton, May 23.—Misses Martha and Edith Nichols were in Stoughton Wednesday visiting friends.

Miss Almer Aulseth went to Stoughton to see the boys of the 32nd division who received their discharge from Camp Grant.

Mrs. William Cohen and daughter, Margaret, Stoughton, visited her parents, Mr. and Mrs. J. B. Johnson, in this city.

Willard Sumner, Madison, greeted friends at the station Thursday. He played at the Arcadia club dance, Janesville.

Mr. and Mrs. Emil Rousch went to Stoughton Thursday to visit Mrs. Kousch's brother, Oscar Odegardien, of the 32nd division with the military police, who arrived home Wednesday in the Toul sector and along the Rhine.

Charles Simmons, Shullsburg, who has just received his discharge from Camp Grant, is visiting his brother, William of this city.

Mrs. Charles Bentley returned home from Pittsburgh, Pa., where she has been spending the winter.

Mrs. George Lyntz received a letter from her son, George Jr., saying that everything was alright. He had run across Robert McIntosh from Edgerton. He doesn't know anything about when he will get home.

Miss Eleanor Kruger, Janesville, is visiting Miss Eleanor Becker of this city.

Allen Skinner and son, William, Madison, are visiting relatives in this city today.

Dr. D. Hyland is visiting relatives in Stoughton.

Norwegian Lutheran Church: Services in Norwegian next Sunday morning at 11:00. Sunday school at 10:00. In the evening, Rev. N. C. A. Garneis, Whitewater, will deliver a lecture on a biblical subject. The lecture will be given in English and is free, the expenses connected with it being paid by the Young People's society. The public is cordially invited. The lecture begins at 8:00.

The confirmation class will meet next Saturday at one o'clock in the church basement. Sunday, June 1, confirmation services will be held. A free offering will be taken for the benefit of the home missions. J. A. Grethlen, pastor.

Methodist Episcopal church: Memorial day. The church will cordially welcome the veterans of the civil war, the Spanish-American war, and the soldiers and sailors of the A. E. F. who have returned to this vicinity, all brave men who made or were willing to make the supreme sacrifice for justice and humanity.

The W. R. C. will attend and all patriotic organizations are heartily invited.

Sunday Services: Public worship at 11:00 a. m. Memorial sermon by the pastor, and special music by the choir. Sunday school at 10:00 a. m. Epworth league at 7:00 p. m. Evening services withdrawn on account of the special program in the congregational church. Wm. Hooten, pastor.

Willard B. Doty is agent for the Ga-

lette in Edgerton. He will see that one of his carriers delivers the paper to your door six evenings each week. Call him up or see him in order to make sure that you receive the Gazette daily.

## KNITTING FOR CHILDREN IS RED CROSS CRY

Stockings, sweaters, mufflers, stockings—so goes the cry coming from the Red Cross knitting committee. The large supply of yarn received several weeks ago to be knitted up for the children overseas, has not yet been knitted. The women are urged to the committee to call for their share and hurry the work before warm weather.

The yarn may be secured of Miss Hattie L. Alden, Red Cross rooms, second floor, post office building, daily from 9 to 12, and from 1 to 5 o'clock.

## GARAGE ENTERED AND TIRES STOLEN

Thieves entered the Murphy and Burdick garage, South River and Pleasant streets during the night, and escaped with eight auto tires, according to a report made to Chief of Police Gower this morning.

The loot is estimated to be worth about \$200. The thieves gained entrance to the building through a rear window.

## COMMUNITY HOUSE URGED BY SPEAKER AT WOMEN'S CLUB

President, Miss Gertrude Cobb.  
First vice-president, Mrs. C. S. Atwood.  
Second vice-president, Mrs. Fred Capelle.  
Recording secretary, Mrs. Louis Amerphol.  
Corresponding secretary, Mrs. W. S. Judd.  
Treasurer, Miss Elizabeth Patterson.  
Auditor, Mrs. A. E. Matheson.

At the annual meeting of the City Federation of Women held yesterday afternoon at the Federated church the preceding list of officers were elected. Nominations were presented by a nominating committee with Miss Mary Barker as chairman. The outgoing president, Mrs. S. M. Smith, made a brief address. A rising vote of thanks was given Mrs. Smith for her faithful services as president.

**Miss Nardin Talks**  
An inspiring address on the needs and uses of a community house was given by Miss F. Louise Nardin, dean of women at the University of Wisconsin. She said that life without dreams was an empty thing, and that the particular thing which most communities had at this time as a dream was a community house.

"We have a place for the gathering of people in a great common joy or sorrow," she said. "War has taught us the common lot of all, and the share each must take in bearing the burden."

"Speaking of the practical needs of a building she noted that there was no place in Janesville where the City Federation with its 600 members could sit down together for a meal."

"Then in regard to the whole city as a civic disposition it would be a real help in democratic understanding to have a place where there could be a roll call of the boys, and a welcoming dinner, when they were all at home," she said.

**Says Place of Gathering is Needed.**  
The need of a place for community singing, for chorus work, and a place where speech could reach many was now almost a necessity in any community. "A town," she said, "was not safe unless certain ideals which were held by a few, could become part of the public sentiment. Civic righteousness in the form of plans for highways, for parks and play grounds, for trees, and river banks could not reach the people unless expression was given of these ideals to them."

She had a vision of another high use for the building on the Fourth of July when it might be used to confer the rights of citizenship on those youths who had attained their majority during the past year, and a little ceremony made for those foreigners who had been made American citizens.

She also discussed the question of making a community fit for the house by making the people good Americans. "One trouble in our civic life has been that it was broken up in little groups," she said.

"The problem of taking care of the young people of a community, especially if they were strangers, could be solved largely by this getting together on a common footing, she thought. The mingling of young and old was particularly helpful, she considered."

She especially emphasized the thought that a community must have high strong ideals to be worthy of the sacrifices which the boys had made.

**Officers Give Reports**  
Reports were given by the secretary, Mrs. Louis Amerphol; treasurer, Mrs. H. D. Mardock; and auditor, Mrs. Fred Capelle. Miss Agnes Webster gave a report of the seed committee which showed that eight women had worked on the committee, had put up 7,400 packages of seed which they had distributed in 12 schools of the city. The cost had been \$51.38, and the sales \$71.88, leaving a balance of \$20. Mrs. J. G. Rexford gave a report of the work of the dental clinic with a resume of the needs of the department.

Mrs. Abbie Helms gave a brief resume of the committee on education, which had chiefly done publicity work along various lines. Valuable assistance given by the women in voting the school bonds thus making a high school possible was noted, as also the fact that cooperation was given in putting on a campaign of health next week. The continued inspection of the moving picture programs as part of the work was also noted.

**Miss Shawwin Sings**  
The afternoon program was opened by two songs by Miss Clara Shawwin.

## LEGISLATURE HEARS STORY OF EVANSVILLE WOMAN PUT INTO CAGE

How she was placed in a discarded lion's cage and drawn through the streets of Evansville, on November 11, because she had not paid her full assessment to the war chest fund, was the story told by Mrs. George Shaw, 74, of Evansville.

Mrs. Shaw, her husband and son, appeared before the committee in support of a resolution, introduced by Assemblyman C. B. Ballard of Appleton, which calls for an investigation of the Evansville case by the attorney general.

"I am 74 years of age," said Mrs. Shaw. "I have bought Liberty bonds in every drive, all that I have been asked to buy. But they made an assessment against me \$45 I think, for the 'Your Share is Fair' drive which I refused to pay, although I offered to give \$10 to the Evansville chapter of the American Red Cross."

"They first gave my house a coat of yellow paint and when I complained to the sheriff of Rock county, he simply laughed and said, 'Do your share,' but he failed to do anything. Then on November 11, the day the armistice was signed and while I was entertaining company, a crowd of men came to the house and began to haul away buildings and make a bonfire down town. My husband told them not to destroy property and suggested that they make use of some of the wood in the yard if they wanted to build a fire. 'Get in the house or we will hang you,' they shouted."

"Later I heard something being said against the door step and in a flash two men who were into a lion's cage. They put me in a chair, but I would not sit down and a neighbor woman threw me a coat. They took me downtown and wanted me to march around the burning buildings carrying a flag."

I would not stir and finally the police came and took me home."

"Later I went to see a lawyer, but he said I could do nothing."

Assemblyman Weeman, acting chairman of the committee asked Mrs. Shaw if she had made any efforts to have them arrested. She replied that she had written to the publishers and they had been told not to testify or they would lose their jobs. Mr. Weeman then informed the woman that she should have taken the matter up with the district attorney of Rock county, before coming before the legislature.

### Around the State

**Appleton Improves Roads.**  
Appleton, May 23.—Asado from the county improvements \$8,000 is to be raised to improve the road between Appleton and Luke Winnebago.

**Elks Perfect Plans.**  
Manitowish, May 23.—The local lodge of Elks at its meeting Monday night, May 20, President Yokoy, the plans for the state convention which will be held here next Monday. Besides the lake excursions which have already been arranged for, two features, a shore league baseball game is on the program, continuous vaudeville and a boat launching. The local Elks will appear in the parade in uniforms and have a marching club of more than 200. The date of the convention is June 19 to 21 inclusive.

**Arrives in India.**  
Sheboygan, May 23.—Miss Ursula Dresser, former school teacher here, who resigned to engage in missionary work in India, has arrived at Madras, India, according to a cablegram received from her. Miss Dresser sailed from Vancouver, February 27. The voyage was rough but the party landed safely at Yokohama, Japan, from where the missionaries went across country to Kobe. There they boarded a boat and sailed for Shanghai, Manila, and Hongkong, respectively. Miss Dresser will go directly to the hills of the far-away country and begin her study of the native language at once.

**Few Packages of Seeds for Children Are Left**  
ed by two songs by Miss Clara Shawwin.

A luncheon was served at 1 o'clock in the parlors of the church by a committee headed by Mrs. Philip Korst. She was assisted by Mesdames H. Hunsen and A. Granger. The dining tables were decorated with pink gables and apple blossoms. About 150 women were served. Mrs. William Curtiss and Mrs. Roy McDonald were in charge of the dining room.

## THE WISHING PLANE

The tontons beat  
A weird tattoo;  
The fire bright,  
Big shadows threw.  
The natives sang  
And danced in glee  
So Jack and Jane  
The show could see.

When Jack and Jane and their friends left Dr. Cheer's home for the natives' village to attend the big party it was dark. The little folks wondered how in the world Captain Brave would be able to land them with his airplane in the native village without flying into a house or a tree or something and hurting them.

But they found out how it was to be done when the airplane reached

the village. In a great field near the village the natives had built a string of bonfires around the ground, leaving a place in the center as big as the fields used for baseball. Captain Brave could see the space very plainly because of the bonfires long before he reached the village, so he just glided the plane down slowly and landed in the center of the field.

The children's eyes were blinded

## MILTON JUNCTION CO. WINS COURT DECISION

(By Special Correspondent)  
Milton Junction, May 23.—The decision of Judge E. Ray Stevens in the Circuit Court at Madison on Tuesday of the McGowan Water, Light and Power company, was in favor of the company in every point, also allows the company to serve an injunction on the Wisconsin Railroad Commission.

## COMPANY G ASKED TO MARCH MEMORIAL DAY

Company G will take part in services here Memorial day. Capt. F. C. Baumann asked that members be asked to turn out voluntarily to go to the cemetery for services over the graves.

Captain Baumann has at hand a communication from Adj. Gen. Orlando Holway as follows:

"The approaching Memorial day, May 30, is of special significance to the people in general and particularly to organized state troops."

There is to be honored on that day not only the dead of former wars, but also the thousands of this war whose testimony that the courage and spirit of American soldiers is as high and steadfast as in the days of the Civil war."

"On May 30 the national flag should be displayed on all armories at half staff from sunrise to midday. At noon it will be hoisted to the top of the staff and there remain until sunset."

"All state guard organizations should voluntarily participate in the public ceremonies of the day and it is desired that commanding officers take steps to procure the voluntary attendance of as many company members as possible."

The committee on seeds for the armistice was signed 2,500 airplanes, for as chairman, has a limited number of packages of seeds which has been sent out by the government. They will be distributed free as long as they last, at the library, Saturday morning between the hours of 10 to 12 o'clock.

by the light of the fires, and all they could see for a minute or two were the forms of the brown men running around the plane. "It didn't take long, though, to put out the fire, and then everybody walked into the village."

There Jack and Jane saw the biggest bonfire they had ever dreamed of.

"They must have taken whole trees and piled them up together," Jack said to Dr. Cheer.

"They did that," said the doctor. "The brown men went far into the forest, found great dead trees and then forty or fifty of the strongest men pulled each tree into the village."

By the time the natives had started dancing around the fire, the musicians were playing the queerest songs Jack and Jane had ever heard of. Some of the players were beating on tiny drums, others were pointing wooden sticks with little wooden handles; others were blowing for all they were worth on horns and other things they had made out of hollow branches and the horns of animals found in the forest.

As far as Jack could see everybody in the village was dancing around the fire.

"Why does everyone dance?" Jane asked Dr. Cheer.

"The brown people believe that no harm will come to them in between these celebrations if they dance as long as they are at each one. Those who don't dance are always afraid they will get some terrible sickness or will be killed by an accident," said Dr. Cheer.

Even the sick folks try to dance and sometimes die dancing around the fire. The missionaries that your church and all of our churches send to countries like this teach the natives that it is wrong for them to have faith in something like the bonfire."

Pretty soon the dances stopped and while the women and the little boys sat down, the men and the boys played games. And such queer games, I will tell you about some of them tomorrow. Copyright, 1919.

## Home Coming to Be Introduced in France

(By Associated Press.)  
Washington, May 23.—Science of home canning will be introduced to the French people by four canning experts of the department of agriculture who will sail for France next Tuesday at the request of the French minister of agriculture.

The department of agriculture announced today that the mission which is being financed by the American commission for devastated France, will visit all French agricultural schools and colleges, giving a three days canning demonstration at each institution for the benefit of domestic science teachers. Practically no home canning now is done by the French people.

## Killed By Train.

Tomah, May 23.—A freight train at a railroad grade crossing near here took toll of two lives when Mrs. J. Winkelman and H. Friske were killed and Will and Ed. Winkelman were badly injured. The party had helped gather spruce boughs for decorating the triumphal arches erected in honor of the returned Tomah soldiers. Their auto engine stopped in the middle of the track as they were crossing.

## May Day Play Monday.

Appleton, May 23.—The annual May day play and pageant will be presented next Monday. The pageant, "The Glorious Dawn," will be presented on the campus when Charlotte Norton will be crowned May queen. The play, "The First Lady of the Land," will be at the Appleton theater.

# Clothes That Look Good to Returning Men

You admired our wearing apparel before you donned Khaki and Blue. Today you will have the same high regard for our clothes. We have not deviated one whit from our standards. However, we have changed our name from "Glasgow," to "Sampica Tailors," with a newer and a better line of suitings and samples. Remember, that the location is the same, 319 West Milwaukee St., and is conducted by the same efficient and reliable men, the Sampica Bros., with C. M. Sampica as manager. We will guarantee "Sampica Tailor Clothes" any time and anywhere. We make the suit or coat to your measure and guarantee it to fit. And the prices are most reasonable: \$22.50 and up.

We have already been honored by so many of the returning men, both soldiers and sailors, coming to us for their "civies". We invite you, too, to at least come in and see what we have to offer.
